of dangerous change News and fictional media alike report that these are dark times and narratives of social resistance imbue many facets of Western culture The new essays making up this collection examine different events and themes of the 2010s that readily acknowledge the struggling state of things Crucially these essays look to the resistance and political activism of communities that seek to make long reaching and institutional changes in the world through a diverse group of media texts They scrutinize how a society relates to injustices and how individuals enact a desire for change The authors analyze a broad range of works such as texts as Awake A Dream from Standing Rock Black Panther The Death of Stalin Get Out Jessica Jones Hamilton The Shape of Water and Star Wars The Last Jedi By digging into these and other works as well as historic events the contributors explicate the soul deep necessity of pushing back against injustice whether personal or cultural **Ibn Khaldun** Robert Irwin, 2019-11-05 Ibn Khaldun 1332 1406 is generally regarded as the greatest intellectual

ever to have appeared in the Arab world a genius who ranks as one of the world s great minds Yet the author of the Muqaddima the most important study of history ever produced in the Islamic world is not as well known as he should be and his ideas are widely misunderstood In this groundbreaking intellectual biography Robert Irwin provides an engaging and authoritative account of Ibn Khaldun s extraordinary life times writings and ideas Irwin tells how Ibn Khaldun who lived in a world decimated by the Black Death held a long series of posts in the tumultuous Islamic courts of North Africa and Muslim Spain becoming a major political player as well as a teacher and writer Closely examining the Muqaddima a startlingly original analysis of the laws of history and drawing on many other contemporary sources Irwin shows how Ibn Khaldun s life and thought fit into historical and intellectual context including medieval Islamic theology philosophy politics literature economics law and tribal life Because Ibn Khaldun s ideas often seem to anticipate by centuries developments in many fields he has often been depicted as more of a modern man than a medieval one and Irwin s account of such misreadings provides new insights about the history of Orientalism In contrast Irwin presents an Ibn Khaldun who was a creature of his time a devout Sufi mystic who was obsessed with the occult and futurology and who lived in an often strange world quite different from our own Jacket Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams

Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to

realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media

Queenship and the Women of Westeros Zita Eva Rohr, Lisa Benz, 2019-11-07 Is the world of George R R Martin s A Song of Ice and Fire and HBO s Game of Thrones really medieval How accurately does it reflect the real Middle Ages Historians have been addressing these questions since the book and television series exploded into a cultural phenomenon For scholars of medieval and early modern women they offer a unique vantage point from which to study the intersections of elite women and popular understandings of the premodern world This volume is a wide ranging study of those intersections Focusing on female agency and the role of advice it finds a wealth of continuities and contrasts between the many powerful female characters of Martin s fantasy world and the strategies that historical women used to exert influence Reading characters such as Daenerys Targaryen Cersei Lannister and Brienne of Tarth with a creative deeply scholarly eye Queenship and the Women of Westeros makes cutting edge developments in queenship studies accessible to everyday readers and fans
