Barborka,1972 **A Glossary of Indian Terms Relating to Religion, Customs, Government, Land; and Other Terms and Words in Common Use. ... With an Appendix Giving Computation of Time and Money, and Weights and Measures, in British India, and Forms of Address** G Temple,1897 **A Glossary of Indian Terms Relating to Religion, Customs, Government, Land; and Other Terms and Words in Common Use** G. Temple,1897 *A Glossary of Indian Religious Terms and Concepts* Narendra Nath Bhattacharyya,1990 The development of each religious system of India being largely conditioned by its inter connections and contradictions with others it can be properly understood only when the vast terminological resources of each system with their many sided suggestivity are diligently worked out from a comparative point of view The present Glossary therefore seeks to explain the basic significance of various terms and concepts which characterize different religious systems of India and also to point out that an in depth study of religious terminology is likely to prove the common origin of all the systems which are specifically different in their functional aspects but are generically alike The logical epistemological and metaphysical terms and concepts as also those pertaining to the ritual and other aspects of religious life originated from one primary source and these were adopted in all the religio philosophical systems of India with necessary modifications In view of the vastness of the material only the more important terms have been included However a detailed index has been provided for cross referencing as also for terms not included in the Glossary as separate entries In all such cases their meanings have been furnished The introductory portion deals with the sources along with a brief history of lexical and terminological studies and the various problems involved therein A detailed bibliography has also been provided *A Brief Sanskrit Glossary* Abbot George Burke,2018-12-21 This sanskrit glossary contains full translations and explanations of many of the most commonly used spiritual sanskrit terms and will help students of the Bhagavad Gita the Upanishads the Yoga Sutras of Patanjali and other indian scriptures and philosophical works to expand their vocabularies to include the sanskrit terms contained in them and gain a fuller understanding in their studies If you are reading the writings of Swami Sivananda you will find a basketful of untranslated Sanskrit words which often have no explanation as he assumes his readers have a background in Hindu philosophy For writings like his this book is invaluable as it lists frequently used sanskrit terms used in writings on yoga and Hindu philosophical thought This is not a sanskrit grammar and those wanting to know sanskrit pronunciation will need other books as it does not have the diacritical markings sometimes used in books on the sanskrit language As the title says this is a spiritual students guidebook listing not only commonly used spiritual terms but also giving brief information about spiritual teachers and writers both modern and ancient *Glossary of Sansk.Terms(+cass)* Geoffrey A Barborka,1972-06-01 **Sanskrit Glossary of Yogic Terms** ,2007 Dictionary of
