A Guide To Welsh Literature:

A Guide to Welsh Literature: c. 1800-1900 Alfred Owen Hughes Jarman, Gwilym Rees Hughes, 1992 This is the fifth in a series of volumes outlining the history and development of Welsh literature from its beginnings in the sixth century to the present day Nineteenth century Welsh literature is long overdue for reassessment In its day it suffered from exaggerated praise which sought to compensate for writers who had failed to make an impact on a neurotic culture In the twentieth century it suffered as much from a parroting of John Morris Jones's disdain for its linguistic infelicities and threadbare didacticism The ten essays in this volume the first of which describes the remarkable growth of the Welsh press provide an overview of the literary scene Four chapters deal with the kind of poetry written and the obstacles confronting the poets the emergence of the novel and drama is pursued in two chapters there is a chapter on Emrys ap Iwan the most arresting cultural commentator of his day and another on the early travel books of O M Edwards whose influence on the twentieth century literary revival was seminal A final chapter shows that in the closing quarter of the century there were critics of a more liberal cast than Morris Jones who were intent on bringing Welsh literature into contact with the surge of creativity revolutionizing European culture This book much of which is based on recent research shows clearly that there is much more to nineteenth century Welsh literature than has been revealed by the dismissive view of it By considering it within a liberating socio cultural context its significance is reappraised thus continuing the recent reclamation of the literature of this period
