**Growth in Europe** Luigi Paganetto,2016-05-17 This book explores the debate on the policies required to overcome the crises of 2008 and 2011 in which the focus on short term measures has overshadowed the need to analyze the low growth rate in the European Union and especially the Eurozone as the basis for interventions that will counteract the tendency toward stagnation Factors that lie at the root of the low growth are examined in depth covering for example the impact of the demographic trend toward an aging population in Europe consequences of inequality for growth challenges posed by technological change competition from emerging countries and difficulties in improving European governance In addition

potential actions to foster innovation and avoid long term stagnation such as new measures to open up markets stimulate competition in services and promote green growth are discussed The book comprises a selection of contributions presented at the XXVII Villa Mondragone International Economic Seminar which brought together renowned economists and representatives of a broad range of countries and leading international institutions It will appeal to all who are interested in the latest thinking on stagnation growth inequality governance competitiveness and innovation in Europe *The Rise of Africa's Middle Class* Henning Melber, 2016-12-15 Across Africa a burgeoning middle class has become the poster child for the Africa rising narrative Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies Bringing together economists political scientists anthropologists and development experts and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa *College Algebra, 4e Instant Access Alta Single Term Access with eBook* Cynthia Y.
