

Alice in Wonderland

Nineteen-year-old Alice (Mia Wasikowska) is attending party at a lavish country estate when she sees a white rabbit with a pocket watch dart into the bushes. Curious, she follows the rabbit to an enormous tree, and tumbles down a hole which takes her to Underland. Underland is a strange world, a place where all creatures are afraid of Red Queen (Helena Bonham Carter). She controls the kingdom and decapitates anyone who dares disagree with her. Of course, this is the time when Alice comes in. She sets the kingdom free by defeating Jabberwocky, a powerful dragon-like creature under the control of the Red Queen. Alice goes through many adventures but, in the end, she restores the White Queen (Anne Hathaway) to the throne and brings peace back to Underland. While some of the creatures of Underland have their doubts, the Mad Hatter (Johnny Depp) and his friends are certain she's the same girl who previously visited them years ago. What do you think?
