The English Review ,1852 **Beyond the Translator's Invisibility** Peter J. Freeth,Rafael Treviño,2024-01-08 The question of whether to disclose that a text is a translation and thereby give visibility to the translator has dominated discussions on translation throughout history Despite becoming one of the most ubiquitous terms in translation studies however the concept of translator in visibility is often criticized for being vague overly adaptable and grounded in literary contexts This interdisciplinary volume therefore draws on concepts from fields such as sociology the digital humanities and interpreting studies to develop and operationalize theoretical understandings of translator visibility beyond these existing criticisms and limitations Through empirical case studies spanning areas including social media research reception studies institutional translation and literary translation this volume demonstrates the value of understanding the visibilities of translators and translation in the plural and adds much needed nuance to one of translation studies most pervasive polarizing and imprecise concepts **The British Controversialist and Literary Magazine** ,1870 **The English Cyclopaedia** Charles Knight,1867 **The English Cyclopaedia: Cyclopaedia of biography** Charles Knight,1858 **The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1868 *Medieval French on the Move* Leah Tether,Patrick Moran,Anne Salamon,2025-03-17 When Keith Busby published his field shaping *Codex and Context* in 2002 the work was referred to as groundbreaking and monumental It prompted scholars of medieval literature to return to manuscripts in their droves However Busby s *Codex and Context* would also enact another more gradual movement His formulation of the term medieval Francophonie to describe the presence power and effect of French outside France would filter steadily into academic enquiry The term and concept are now widely recognised and applied in global scholarship including in multiple major projects dedicated to the topic This volume brings together a series of cutting edge studies of medieval Francophonie

covering in one place and for the first time the fullest scope of the concept's remit with contributions on history historiography language literature culture society and authority At the same time as offering a timely contribution to the field this volume pays tribute to Busby's life work not only to pioneer medieval Francophonia but also and moreover to encourage the study of the medieval through material philology Each of the studies here written by Busby's friends and colleagues thus roots its approach in a material context
