 that the political spectrum today is inadequate to twenty first century America and a major source of the confusion and
 hostility that characterize contemporary political discourse As American politics descends into a battle of anger and hostility
 between two groups called left and right people increasingly ask What is the essential difference between these two
 ideological groups In *The Myth of Left and Right* Hyrum Lewis and Verlan Lewis provide the surprising answer nothing As
 the authors argue there is no enduring philosophy disposition or essence uniting the various positions associated with the
 liberal and conservative ideologies of today Far from being an eternal dividing line of American politics the political spectrum
 came to the United States in the 1920s and since then left and right have evolved in so many unpredictable and even
 contradictory ways that there is currently nothing other than tribal loyalty holding together the many disparate positions that
 fly under the banners of liberal and conservative Powerfully argued and cutting against the grain of most scholarship on
 polarization in America this book shows why the idea that the political spectrum measures deeply held worldviews is the
 central political myth of our time and a major cause of the confusion and vitriol that characterize public discourse
