

WHAT IS THE AMERICAN DREAM?

James Truslow Adams, in his book *The Epic of America*, which was written in 1931, stated that the American dream is "that dream of a land in which life should be better and richer and fuller for everyone, with opportunity for each according to ability or achievement. It is a difficult dream for the European upper classes to interpret adequately, and too many of us ourselves have grown weary and mistrustful of it. It is not a dream of motor cars and high wages merely, but a dream of social order in which each man and each woman shall be able to attain to the fullest stature of which they are innately capable, and be recognized by others for what they are, regardless of the fortuitous circumstances of birth or position." (p.214-215)

The authors of the United States' Declaration of Independence held certain truths to be self-evident: that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are life, Liberty and the Pursuit of Happiness." Might this sentiment be considered the foundation of the American Dream?

Were homesteaders who left the big cities of the east to find happiness and their piece of land in the unknown wilderness pursuing these inalienable Rights? Were the immigrants who came to the United States looking for their bit of life, liberty and the pursuit of happiness, their Dream? And what did the desire of the veteran of World War II - to settle down, to have a home, a car and a family - tell us about this evolving Dream? Is the American Dream attainable by all Americans?

Some say, that the American Dream has become the pursuit of material prosperity - that people work more hours to get bigger cars, fancier homes, the fruits of prosperity for their families - but have less time to enjoy their prosperity. Others say that the American Dream is beyond the grasp of the working poor who must work two jobs to insure their family's survival. Yet others look toward a new American Dream with less focus on financial gain and more emphasis on living a simple, fulfilling life.

Thomas Wolfe said, "...to every man, regardless of his birth, his shining, golden opportunitythe right to live, to work, to be himself, and to become whatever thing his manhood and his vision can combine to make him."

Is this your American Dream?

Rohe, Harry L.

Watson, 2018-07-05 Providing decent safe and affordable housing to low and moderate income families has been an important public policy goal for more than a century In recent years there has been a clear shift of emphasis among policymakers from a focus on providing affordable rental units to providing affordable homeownership opportunities Due in part to programs introduced by the Clinton and Bush administrations the nation's homeownership rate is currently at an all time high Does a house become a home only when it comes with a deed attached Is participation in the real estate market a precondition to engaged citizenship or wealth creation The real estate industry's marketing efforts and government policy initiatives might lead one to believe so The shift in emphasis from rental subsidies to affordable homeownership opportunities has been justified in many ways Claims for the benefits of homeownership have been largely accepted without close scrutiny But is homeownership always beneficial for low income Americans or are its benefits undermined by the difficulties caused by unfavorable mortgage terms and by the poor condition or location of the homes bought Chasing the American Dream provides a critical assessment of affordable homeownership policies and goals Its contributors represent a variety of disciplinary perspectives and offer a thorough understanding of the economic social political architectural and cultural effects of homeownership programs as well as their history The editors draw together the assessments included in this book to prescribe a plan of action that lays out what must be done to make homeownership policy both effective and equitable

Cerulo, Janet M. Ruane, 2022-06-21 How social status shapes our dreams of the future and inhibits the lives we envision for ourselves Most of us understand that a person's place in society can close doors to opportunity but anything is possible when we dream about what might be or so we think Dreams of a Lifetime reveals that what and how we dream and whether we believe our dreams can actually come true are tied to our social class gender race age and life events Karen Cerulo and Janet Ruane argue that

our social location shapes the seemingly private and unique life of our minds We are all free to dream about possibilities but not all dreamers are equal Cerulo and Ruane show how our social position ingrains itself on our mind s eye quietly influencing the nature of our dreams whether we embrace dreaming or dream at all and whether we believe that our dreams from the attainable to the improbable can become realities They explore how inequalities stemming from social disadvantages pattern our dreams for ourselves and how sociocultural disparities in how we dream exacerbate social inequalities and limit the life paths we believe are open to us Drawing on a wealth of original interviews with people from diverse social backgrounds Dreams of a Lifetime demonstrates how the study of our dreams can provide new avenues for understanding and combatting inequality including inequalities that precede action or outcome
