American Government Chapter Assessment:

The US National Climate Assessment Katharine Jacobs, Susanne Moser, James Buizer, 2016-08-09 This book offers valuable climate policy and climate assessment lessons depicting what it takes to build a sustained climate assessment process It explores the third U S National Climate Assessment NCA3 report as compared with previous US national climate assessments from both a process and content perspective The U S Global Change Research Program is required by law to produce a National Climate Assessment report every four years and these reports provide a comprehensive evaluation of climate science as well as observed and projected climate impacts on a variety of sectors As the book describes a key contribution of the NCA3 approach is a far more deliberate interdisciplinary process as well as an engagement strategy that brought hundreds of public and private sector stakeholders into the assessment community Among its most important conceptual contributions was an explicit focus on building the infrastructure to conduct better assessments over time and an experimental approach to analysis of the impacts of climate on cross sectoral systems and inter locking and cascading effects across sectors Readers may explore innovations such as the development of regional climatologies and projections for every region of the US as well as the development of the Global Change Information System The book also highlights the need for decision makers to be part of the assessment process in order for assessment findings to be truly useful from a decision maker s perspective Many lessons have been learned by the NCA3 authors that can be useful in future assessments and adaptation processes both within the US and internationally This book passes on such lessons and includes an evaluation of the role of state climate assessments in ongoing national assessment processes *Federal-state-local Fiscal Relations*, 1986

2001 Magruder's American Government William A. McClenaghan, Frank Abbott Magruder, 2001 **110-2: Analytical Perspectives, Budget of The U.S. Government, H. Doc. 110-84, Vol. 3, Fiscal Year 2009, ***, 2008 *Lies, Damned Lies, and Drug War Statistics, Second Edition* Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights

the war on drugs Praise for the First Edition Lies Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance
