

Analytical Reasoning QUESTIONS AND ANSWERS

Read the information given below and then answer the questions that follow. There is a family of six person P, Q, R, S, T and U. Their professions are Engineer, Doctor, Teacher, Salesman, Manager and Lawyer.

- (i) There are two married couples in the family.
- (ii) The Manager is the grandfather of U, who is an Engineer
- (iii) R, the Salesman, is married to the lady Teacher
- (iv) Q is the mother of U and T.
- (v) The Doctor, S is married to the Manager.

From the information given in the question it is clear that there is a family tree of three generations. Family Tree

1st	P (Manager)	S (Doctor)
2nd	R (Salesman)	Q (Teacher)
3rd	U (Engineer)	T (Lawyer)

It is clear from the information that two married couples will be (P – S) and (R – Q). Sex of U and T can't be determined from the information.

1. How many male members are there in the family?

- Two
- Three
- Four
- Data inadequate
- None of these

ANSWER : Data inadequate

Explanation : The sex of U and T can't be determined. Therefore, we can't find how many male members are there.

Performance Analysis for Public and Nonprofit Organizations XiaoHu Wang, 2009-02-13

Instructor Resources TestBank Examples Performance Analysis for Public and Nonprofit Organizations provides a step by step guide on how to conduct applied performance analysis to improve performance for public and nonprofit organizations It is designed as a how to do manual for public and nonprofit managers who want to know how to conduct performance analysis It features a practical case study approach and includes plentiful exercises and examples with easy to use demonstrations of Microsoft Excel The book focuses on application of performance analysis tools not the theory of performance management This text is an effective learning tool for students in analytical technique courses in public administration and policy programs With other texts students may learn about a statistical concept and calculation but still don't understand the

managerial context where the statistical tool applies. Consequently, they often fail to understand the managerial importance of statistical tools they learn and worse fail to recognize the correct tool to use when a managerial issue arises. This book corrects this problem by providing a managerial context that bridges statistical concepts and the managerial reality. The managerial context is performance management in which performance data are presented, monitored, and analyzed. It is in this performance management context that the usefulness and applicability of statistical tools are illuminated for the learner. Thoroughly classroom tested, the book is designed as a textbook for courses of analytical and statistical techniques in public administration and nonprofit management. Each chapter starts with a discussion of tools and related concepts with examples, then presents a factual case study to demonstrate the use of the tools, and ends with a list of practice questions. Equipped with the latest research, the book is also designed for public and nonprofit managers on how to use performance information to improve organizational performance. Click on Additional Resources to View Sample Chapters. Ideal for primary courses in Analytical and Statistical Methods in Public Administration, Analytical and Statistical Methods in Nonprofit Management, Performance management in public or nonprofit organizations, Any training courses that target organizational performance, And secondary courses in Public management, Research methods, As well as for professional training courses offered by professional organizations such as ICMA International, City County Management Association, or nonprofit organizations. 2010 352 pages
