Global Trend Space Opera:

Science Fiction, New Space Opera, and Neoliberal Globalism Jerome Winter, 2016-11-15 One of the few points critics and readers can agree upon when discussing the fiction popularly known as New Space Opera a recent subgenre movement of science fiction is its canny engagement with contemporary cultural politics in the age of globalisation This book avers that the complex political allegories of New Space Opera respond to the recent cultural phenomenon known as neoliberalism which entails the championing of the deregulation and privatisation of social services and programmes in the service of global free market expansion Providing close readings of the evolving New Space Opera canon and cultural histories and theoretical contexts of neoliberalism as a regnant ideology of our times this book conceptualises a means to appreciate this thriving movement of popular literature

Division of Labor and China's Responses Bei Jin, Qizi Zhang, 2022-11-02 This book explores the dynamic process of International Division of Labor with constant development and changes. The process reflects not only the development level of productivity but also relations between countries. What would be the evolution path for the International Division of Labor? How to improve China's and emerging economies competitiveness to meet the new industrial revolution? The book aims to answer the questions under the global context. China would explore the innovation in new economic forms to strengthen international cooperation and avoid the intensified trade frictions brought about by its industrial upgrading. The Chinese Air Force Richard P. Hallion, Roger Cliff, Phillip C. Saunders, Center for the Study of Chinese Military Affairs (U.S.), 2012-10-03 Presents revised and edited papers from a October 2010 conference held in Taipei on the Chinese Air Force. The conference was jointly organized by Taiwan's Council for Advanced Policy Studies, the Carnegie Endowment for International Peace, the U.S. National Defense University and the RAND Corporation. This book offers a complete picture of where the Chinese air force is today, where it has come from and most importantly where it is headed. Science Fiction Roger

Luckhurst, 2005-05-06 In this new and timely cultural history of science fiction Roger Luckhurst examines the genre from its origins in the late nineteenth century to its latest manifestations. The book introduces and explicates major works of science fiction literature by placing them in a series of contexts using the history of science and technology, political and economic history and cultural theory to develop the means for understanding the unique qualities of the genre. Luckhurst reads science fiction as a literature of modernity. His astute analysis examines how the genre provides a constantly modulating record of how human embodiment is transformed by scientific and technological change and how the very sense of self is imaginatively recomposed in popular fictions that range from utopian possibility to Gothic terror. This highly readable study charts the overlapping yet distinct histories of British and American science fiction with commentary on the central authors, magazines, movements and texts from 1880 to the present day. It will be an invaluable guide and resource for all students taking courses on science fiction, technoculture and popular literature but will equally be fascinating for anyone who has ever enjoyed a
