A History of Chinese Art in the 20th and 21st

Century Lü Peng, 2025-02-03 This book situates the development of 20th and 21st century Chinese art in such fundamental contexts as Chinese politics and social change and is ideally suited for readers to understand the particularities of Chinese art that are distinct from Western art history Such an approach is appropriate to the understanding of the development of modern Chinese art which differs from both the Western approach to art history and the approach to traditional Chinese art which is limited to the combining of ink and brush heritage and ideological traditions Based on the scale and influence of historical works considering the specificity of the term involving fine art in China and the scope of influence of the phenomenon of fine art in the cultural field this book's study of the phenomena of painting sculpture photography video and mixed media art follows two linear time lines of historical relevance 1949 1978 and 1978 to the present Special attention is paid to the development of modern and contemporary art after 1978 The main readers of this book are undergraduate students in art schools graduate and doctoral students in art history students in other humanities disciplines experts and professors in the study of 20th century Chinese art and cultural history should be important readers of this book Themes

in the History of Japanese Garden Art Wybe Kuitert, 2002-01-01 Revised and updated Themes in the History of Japanese Garden Art presents new interpretations of the evolution of Japanese garden art Its depth and much needed emphasis on a practical context for garden creation will appeal to art and literary historians as well as scholars students and appreciators of garden and landscape art Asian and Western BOOK JACKET **History of Technology Volume 29** Ian Inkster, 2010-06-15

The common question from the western point of view is of the sort why did China lose its early leadership of productive technologies to Europe during the early modern period Answers to this seemingly clear enquiry vary from general cultural inwardness to the interferences of imperial governance This collection surveys such theories but alters the issue by raising the notion that Chinese technologies did not so much fail as move along a path different from that of Europe Our second collection on the Mindful Hand also shifts common ground by querying and modifying common views of the links between knowledge and technique in early modern European development Scientific or related knowledge was not brought to technique as a socio cultural gift from an educated elite to the working man Rather educated gents practitioners instrument makers craftsfolk and technicians of all kinds intermingled both socially and in terms of the recognition of technical problems as well as in the assemblage of the mental commercial and cognitive resources required to pursue innovative production projects
