Women Overpowered by Compulsive Gambling Rosemary A. Cunliffe North, 2008-03-24 Gambling like any other addiction is overpowering it can and will drive you to insanity If you have not succumbed to insanity it just might cause you to consider committing a crime to obtain finances so you may continue with your addiction to gamble thus leading you closer to the gates of prison or worse yet death I came much too close to getting arrested for a felony like a few of my sisters I have tried and failed at committing suicide on three different occasions There are those brothers and sisters in the fellowship who have succeeded at suicide You just might go so far as to embezzle funds from your employer There are those sisters who have spent time incarcerated for their crimes and yet others are still in prison A quote taken from my Gamblers Anonymous handbook states The persistence of this illusion is astonishing Many pursue it into the gates of prison insanity or death My choice was life over death sanity over insanity and the thought of prison scares me My life free from gambling the love of God and family is far more important to me to ignore After seven plus years of frenzied uncontrollable insanity I have turned my life over to my Higher Power my God Jesus Christ He has helped me through all my adversity above all else He has restored my love for Him and family Gambling is described as one of the most baffling and insidious addictions that can never be cured but it can most definitely be arrested through diligent hard work in the Gamblers Anonymous Program Two words in my vocabulary baffling and insidious remind me what gambling will do to you The word baffle in my dictionary is described as frustrate thwart foil and perplex The meaning of the word insidious

Brenner, 1990-03-30 Gambling and Speculation takes the long historic perspective of its controversial subject The book offers not only a better understanding of the recent gambling craze but also a fundamental inquiry into human nature and the structure of societies The Brenners argue that the negative image of gamblers and of speculators stems from prejudice whose roots are in the distant forgotten past Legal scholars have frequently confused gambling with speculation and the anti gambling laws were at times erroneously interpreted as implying the prohibitions of contracts in futures and insurance markets One consequence of all this confusion was that during this century both in the United States and England the legislation and law on betting and gambling became ambiguous The authors touch on this issue and make policy recommendations to abolish restrictions on the industry diminish the states role in selling lotteries and at the same time make legal distinctions capable of helping the tiny percentage of players who might be addicted The Brenners recommendations on gambling are based on their conclusion that gamblers are neither mentally ill nor criminals and that gambling does not lead its practitioners to poverty Rather it is the other way around some of the poor and the frustrated gamble Looking at gambling in this way leads to questions about the nature of society What do the fortunate do for those who are not What is society's obligation to people who fall behind in the game of life Answers to these questions require a discussion on the principles of equality capitalism the role of religious influence on society topics that the Brenners have discussed in their previous studies and they do so here too putting gambling within its proper historical context Gambling, Or, The Evil Effects of the Thirst for Gold Richard BIRNIE, 1868
