A Little Local Difficulty:

The Man in the Street Martin Howe, 2019-05-28 Britain 1930s Tony Cox out of work finds himself swept up in a wave of right wing activism mass rallies charismatic leadership and public violence Rising through the ranks of the British Union of Fascists he is interned at the outbreak of the Second World War Upon his release Tony reinvents himself burying his history from everyone including the one person who truly loves him his grandson But when a violent secret from the past emerges Tony's world is brought crashing down around him Britain 1990s David Coxon Dyet looks up to Tony He knows nothing about his secret past but as his personal life collapses and David is faced with redundancy and economic insecurity the terrible truth about his grandfather is revealed Betrayed by the actions of others both grandfather and grandson take extreme measures to wrest back control For these men in the street the consequences are profound The Possibility of Politics Stein Ringen, 2017-09-04 The Possibility of Politics explores the power of political reform specifically reform of the modern welfare state Can reform be effective if limited to cautious and piecemeal interventions that avoid radicalism and revolution Can it also avoid unwanted consequences Will the welfare state survive in the future Stein Ringen views the welfare state as a large scale experiment in political reform To ask if the welfare state works is to ask if political reform is possible at all By its nature the welfare state is reform on a grand scale for it attempts to change the circumstances individuals and families live under without changing and disrupting society itself But is it realistic to believe a population can get together set goals and then try to meet these goals through collective actions specifically public policies without causing unintended consequences and destroying the state in the process The welfare state attempts idealistically to redistribute welfare without reshaping the economic processes that cause inequities in the first place Ringen considers how well redistribution has met the test in terms of political legitimacy its intended effects on poverty and inequality as well as its undesired and unintended effects on economic efficiency and the quality of private life Ultimately does the welfare state work Further is the welfare state a good thing In considering these questions The Possibility of Politics should be of particular value to academics and advanced students interested in political theory public economics social administration and political sociology Stein Ringen is professor of sociology and social policy at Oxford University and a Fellow of Green College He teaches social and political theory and research methodology for graduates in social policy sociology politics economic and social history and other subjects **Literary Texts and the Greek Historian** Christopher Pelling, 2002-01-22 First published in 1999 Routledge is an imprint of Taylor Francis an informa company Free Love Tony Garnett, 2013-04 Roger is a retired Professor of history Once famous and admired as an academic star and a lifelong advocate for the rights of women he has grown fat and self indulgent and is currently living in exile in Provence A very public scandal of betrayal precipitated his fall from grace His only hope of restoring his reputation is a memoir or preferably a detached biography He convinces his oldest friend Clive another retired academic to write it Roger's personal reflections take us back to the 1960s

where we learn of a life devoted compulsively to sexual adventure with countless women mostly young feminists drawn to this charismatic man of principle fighting their cause Clive is inclined to ignore these escapades He is to write a professional biography not indulge in prurient gossip But when he discovers that Roger s adventures bring betrayal into his own family he cannot separate the personal from the political Lives are shattered as truths are revealed Tony Garnett was born in Birmingham England and attended university in London where he has been ever since with the exception of a few years spent working in the motion picture industry in Hollywood Now retired after a career as a prolific screenwriter his work in the movies and at the BBC has taken him all over the UK and to many other countries as well Although still residing in London he remains close to his family in Birmingham and closely follows his boyhood soccer team Aston Villa Free Love is his third novel Publisher s website <http://sbpra.com> TonyGarnett

Modernity Britain David Kynaston, 2013-06-20 The late 1950s was an action packed often dramatic time in which the contours of modern Britain began to take shape These were the never had it so good years when the Carry On film series and the TV soap Emergency Ward 10 got going and films like Room at the Top and plays like A Taste of Honey brought the working class to the centre of the national frame when the urban skyline began irresistibly to go high rise when CND galvanised the progressive middle class when youth emerged as a cultural force when the Notting Hill riots made race and immigration an inescapable reality and when meritocracy became the buzz word of the day The consequences of this modernity zeitgeist David Kynaston argues still affect us today The Invention of Telepathy, 1870-1901 Roger Luckhurst, 2002 The Invention of Telepathy explores one of the enduring concepts to emerge from the late nineteenth century Telepathy was coined by Frederic Myers in 1882 He defined it as the communication of any kind from one mind to another independently of the recognised channels of sense By 1901 it had become a disputed phenomenon amongst physical scientists yet was the royal road to the unconscious mind Telepathy was discussed by eminent men and women of the day including Sigmund Freud Thomas Huxley Henry and William James Mary Kingsley Andrew Lang Vernon Lee W T Stead and Oscar Wilde Did telepathy signal evolutionary advance or possible decline Could it be a means of binding the Empire closer together or was it used by natives to subvert imperial communications Were women more sensitive than men and if so why Roger Luckhurst investigates these questions in an exciting and accessible study that mixes history of science with cultural history and literary analysis A National Health Service? John Mohan, 1995-03-20 This book contrasts the proposals of the Royal Commission of the late 1970s with the very different set of priorities enshrined in the 1989 White Paper and describes how the changes between the two documents came about It argues that the NHS reforms should be seen not as the inevitable product of technical developments nor as a consensus response to narrowly managerial difficulties within the NHS but rather as part of a wider political strategy towards state provision of welfare The book strongly emphasises the uneven geographical impacts of post 1979 changes a topic usually underplayed by analysts of social policy and draws heavily on previously unpublished material **Japanese Electronics Multinationals and Strategic Trade Policies** René Belderbos, 1997 Japanese electronics firms have grown into formidable competitors on world markets but have only expanded seriously their manufacturing presence world wide since 1985 This volume probes the difference of Japanese multinationals and examines how the United States and Europe have responded to the Japanese challenge Belderbos provides original insights into the determinants and effects of the internationalization of Japanese electronics firms and the relationship with trade policy measures in the United States and the European Union *Unionist Politics and the Politics of Unionism Since*

the Anglo-Irish Agreement Feargal Cochrane, 1997 *Unionist Politics and the Politics of Unionism* is the first and most comprehensive study of unionist politics since the Anglo Irish Agreement and sets out to explain the dynamics which underpin contemporary unionist political behaviour. An understanding of the mindset, fears and objectives of the largest political community in Northern Ireland is crucial to any attempt to address and resolve the political conflict in the region. This book concentrates on the period preceding the signing of the Anglo Irish Agreement of 15 November 1985 through to the forum elections and multi party talks of July 1996. In this contemporary history of Ulster unionism Feargal Cochrane examines the response to the Anglo Irish Agreement, the tensions this created both within and between the main unionist parties and the evolution of the unionist political strategy after the failure of the campaign against the Agreement. In addition to explaining what happened during this period, the book analyses why the unionist political community behaved the way it did, provides an account of James Molyneaux's political downfall and gives the first serious evaluation of David Trimble's performance as leader of the Ulster Unionist Party. The author refines and improves upon previous theoretical models of the unionist ideology. He outlines the problems and difficulties facing Ulster unionism as we approach the end of the millennium and provides an informed judgement about the ideology's long term future. *Unionist Politics and the Politics of Unionism* contains a critical review of the existing literature on Ulster unionism which will be a useful reference point for academics, students, parliamentarians and all those requiring a deeper understanding of the subject.

New Lives, New Landscapes Revisited Linda M. Ross, Katrina Navickas, Ben Anderson, Matthew Kelly, 2023-06-08 How did rural Britain become modern during the twentieth century? *New Lives New Landscapes* examines how the development of modern infrastructure in Britain transformed both its landscapes and the lives of those who lived within them. Shifting the focus away from the city, the narrative challenges us to rethink what we mean by modern Britain.

Austerity, Youth Policy and the Deconstruction of the Youth Service in England Bernard Davies, 2018-12-29 This timely book presents a vital analysis of the politics, policy and practice of youth work services in England and the impacts of the austerity agenda introduced after the 2007-08 financial crisis. Davies frames his research within the ideological, political and economic context of the last decade, contemplating the prescriptions of neoliberalism and various other socio-political developments. He illustrates how wider government policies, programmes and initiatives have marred the purposes and methods of the Youth Service and youth work facilities, forging connections with what this means for young people and youth work. Unique in its depth and detail, this book is one of the first comprehensive, evidenced and up-to-date accounts of UK Youth Policy. It is an essential and invaluable resource for youth educators, researchers, service managers, practitioners and activists, as well as scholars and students of youth studies, social policy, public policy and history.

How Schrodinger's Cat Escaped The Box Peter Rowlands,2014-11-27 This book attempts to explain the core of physics the origin of everything and anything It explains why physics at the most fundamental level and especially quantum mechanics has moved away from naive realism towards abstraction and how this means that we can begin to answer some of the most fundamental questions which trouble us all about space time matter etc It provides an original approach based on symmetry which will be of interest to professionals as well as lay people In the book virtually no prior knowledge is assumed but the readers are allowed to participate in a discussion of very deep ideas Throughout the book the readers are guided through some important ideas which need to be explained mathematically The key fact is that the mathematics is not about calculation but about concepts Much of it can be simplified using coloured text and diagrams This means that ideas which are important to everyone who wants to know how the universe is structured are not glossed over as being too difficult for anybody but the experts This book is written for a wide audience Experts will gain a great deal but so will lay readers This would be an ideal book for students to read before progressing to another book by the author The Foundations of Physical Law *Proceedings of the Oecumenical Methodist Conference. Held in City Road Chapel, London, September 1881* William Arthur,2024-04-06 Reprint of the original first published in 1882 **Betraying the NHS** Michael Mandelstam,2007 Based on his experiences of helping to fight cuts and closures in Suffolk Michael Mandelstam delivers a damning verdict on the mismanagement of the NHS at national regional and local level He charts the widespread cutbacks and closures both rural and urban to clinics A E services beds wards and scores of community hospitals He outlines how humane care particularly for older people is compromised by the ruthless determination of NHS management to increase patient throughput and hit government set targets The author highlights how the chaotic change to the NHS is being driven by concealed agendas including privatisation of the NHS obsessive interference from central government as well as selective use if not abandonment of evidence based practice Seriously flawed and damaging decisions are the result affecting the population at large as well as those most vulnerable older people with chronic and complex needs people with physical or learning disabilities and people with mental health problems Above all he exposes the scandalous lack of transparency and accountability behind changes that threaten to destroy the NHS **Proceedings of the Ecumenical Methodist Conference, Held in City Road Chapel, London, September, 1881** William Arthur,2024-04-06 Reprint of the original first published in 1882
