A Presentist Path To World Peace:

A Presentist Path to World Peace M. G. Person, 2014-10-10 The Road to Ukraine Frank Furedi, 2022-08-01 Russia's invasion of Ukraine is the latest chapter in a series of events that have their origins in World War One. The difficult existential questions that emerged before and during this conflict still remain unresolved. Contrary to the claim that wars are not supposed to happen in Europe or that we live in the era of the End of History, the experience of Ukraine highlights the salience of the spell of the past. The failure of the West to take its past seriously has left it confused and unprepared to deal with the current crisis. Unexpectedly fashionable claims about the irrelevance of borders and of nation states have been exposed as shallow myths. The author argues that the West's self-inflicted condition of historical amnesia has encouraged it to disregard the salience of geo-political realities. Suddenly the once fashionable claims that made up the virtues of globalisation appear threadbare. This problem, which was already evident during the global Covid pandemic, has reached a crisis point in the battlefield of Ukraine. History has had its revenge on a culture that believes that what happened in the past no longer matters. The Road To Ukraine: How the West Lost Its Way argues that overcoming the state of historical amnesia is the precondition for the restoration of global solidarity.

Beyond 'Presentism', 2009-01-01. Precisely titled, this powerful collection constitutes a chronotope, an erudite enactment of interstices within and among historical time, spiritual place and political culture. A recollection focused forward to those hybrid generations in Canadian classrooms whose frontier is haunted by forts populated by not always their ancestors inscribed in their national, regional, aboriginal identities. Homophobic, hygienic, the curriculum is always already inhabited by the language of the Other, propelling us toward post-post being forested in difference, rooted in images refracted through mirrors and windows. In constructing this crucial collage of decolonization, the contributors summon us to study with them the place we inhabit.

WILLIAM F. PINAR, Professor and Canada Research Chair, Department of Curriculum and Pedagogy, University of British Columbia, Canada.

The Marrying Monk Dadajii Vimalananda, 2013-10-31. Dada has spent the last 40 years of his life living among us just as a normal human being. He never asked for any special treatment or recognition. He always gave his spiritual teachings freely and has served his community in every possible capacity while still facing the same marital, familial, financial challenges that we all face. Dada's life is an inspiration to us all. He has shown the way to all Americans that we can face each daily challenge, struggle and hardship and still keep our inner strength, our poise and our purpose through it all. Dada's story will amaze you, will amuse you and will astound you, and finally it will inspire in you the confidence that you can accomplish all that Dada has accomplished in your life as well.

The Social Life of Connectivity in Africa Mirjam de Bruijn, Rijk van Dijk, 2012-12-05. The rapid increase in adoption of modern connective technologies like the mobile phone has reshaped the social landscape of Africa. This book examines the myriad possibilities that the post-global moment offers African societies to develop and to relate, offering profound new insights into the processes of globalization.

Peace Pact David C. Hendrickson, 2003. That

New England might invade Virginia is inconceivable today But interstate rivalries and the possibility of intersectional war loomed large in the thinking of the Framers who convened in Philadelphia in 1787 to put on paper the ideas that would bind the federal union together At the end of the Constitutional Convention Benjamin Franklin rejoiced that the document would astonish our enemies who are waiting to hear with confidence that our States are on the point of separation only to meet hereafter for the purpose of cutting one another s throats Usually dismissed as hyperbole this and similar remarks by other Founders help us to understand the core concerns that shaped their conception of the Union By reexamining the creation of the federal system of the United States from a perspective that yokes diplomacy with constitutionalism Hendrickson s study introduces a new way to think about what is familiar to us This groundbreaking book tells the story of how thirteen colonies became independent states and found themselves grappling with the classic problems of international cooperation The founding generation Hendrickson argues developed a sophisticated science of i

The Apocalyptic Year 1000 Richard Landes,Richard Allen Landes,Andrew Colin Gow,David C. Van Meter,2003 The essays in this volume challenge prevailing views on the way in which apocalyptic concerns contributed to larger processes of social change at the first millennium They should provoke new interest in and debate on the nature and causes of social change in early medieval Europe

Blessed and Beautiful Lisa Washington Lamb,2014-06-05 Colleges can do it Hospitals can do it Workplaces can do it Why does the church in the United States still find it so difficult to integrate across racial and ethnic divides In *Blessed and Beautiful* Lisa Lamb trains her sights on one often overlooked facet of forging life together the magnetic power of shared memories Those common narratives bind ethnic groups together and keep them apart This book explores the sociological and theological dimensions of social memory and considers the particularly powerful tool preaching could be for shaping individuals who are willing to risk remembering their people s past in church and for shaping churches capable of hearing those stories While keenly aware of the complex dynamics involved Lamb ultimately gives pastors and other church leaders a glimmer of hope as they seek to build reconciled communities of faith

The Time of Global Politics Christopher McIntosh,2023-12-07 How can we better relate and respond to the political times we inhabit Temporal relationships play a central role in the questions at the heart of global politics but political commentators and observers focus almost exclusively on the past as a means of predicting and preparing for the future Christopher McIntosh argues that although past events are meaningful for our collective future the present remains vitally important McIntosh emphasises the importance of the present as a conceptual resource and analytical category for thinking about international politics The present he suggests places an orientation toward difference and a recognition of the human limits of understanding alongside an emphasis on process and change This book will shift current thinking about prediction and better enable the use of knowledge about international politics to meaningfully and positively intervene in present day concerns
