attacks usually allows room for prevention as the user may be able to defend against any possible system vulnerability EH is used as a penetration testing tool in order to prevent breach of basic rights privacy and free will Ethical hackers are usually professionals or network penetration testers who use their hacking skills and toolsets for defensive and protective purposes Then again there are three sorts of programmers Black Hat Grey Hat and White Hat as indicated by Hoffman 2013 White Hats are usually software engineers that hack for good and hack with respect to corporate business networking structures A Grey Hat hacker may do things imperfect in nature however not to intentionally hurt people or damage systems unless there is a genuine positive result A Black Hat Hacker will maliciously misuse computers and networks with pernicious aim with no legitimate reason Hacking also means accessing a system that one is either not authorized to access or who accesses a system at a level beyond their authorization clearly abandoning the possibility of ethics being applied to it The rise in cybercrime is a major breaching issue for organizations and it has been reported that over 30 000 SME websites are hacked daily The need for advanced cyber security is a necessity to fight of Black Hat Hackers and organizations all over the world need to start implementing such procedures to protect their businesses but the costs related to EH make it impossible for smaller companies to cope EH is gone beyond just professionals as universities all around the world have been offering courses to graduate and undergraduate students to increase their understanding on how to protect data and apply security procedures in an ethical way Making it easier for organizations to employ talent rather than pay for services from external organizations however teaching young students the profession of hacking without knowledge of their intent could be suicidal EH can be applied to many circumstances however this paper will discuss the advantages and disadvantages of EH within three separate sectors education business and governmental to allow the reader to truly understand and grasp the importance of the subject at hand
