A Global History Of Architecture 2nd Edition:

A Global History of Architecture Francis D. K. Ching, Mark M. Jarzombek, Vikramaditya Prakash, 2010-12-13 The award winning First Edition of A Global History of Architecture was a publishing event that forever changed the way architectural history is viewed and studied This Second Edition surpasses the first with a lavish new design illustrated throughout with drawings and photographs in full color and even more maps and diagrams detailing global interconnections The signature drawings of Francis D K Ching are more informative than ever updated with scale annotation and function added where needed This revision is sure to remain the most relevant book on the topic A Global History of Architecture Francis D. K. Ching, Mark M. Jarzombek, Vikramaditya Prakash, 2010-09-09 From ancient Chinese civilization to the postmodern world Organized along a global timeline A Global History of Architecture presents an innovative approach to the study of architectural history Spanning from 3 500 B C E to the present this unique guide is written by an all star team of architectural experts in their fields who emphasize the connections contrasts and influences of architectural movements throughout history The architectural history of the world comes to life through a unified framework for interpreting and understanding architecture supplemented by rich drawings from the renowned Frank Ching as well as brilliant photographs Architecture and art history enthusiasts will find A Global History of Architecture perpetually at their fingertips

Architecture Francis D. K. Ching, 2014-09-29 THE CLASSIC ARCHITECTURAL REFERENCE UPDATED WITH CONTEMPORARY EXAMPLES AND INTERACTIVE RESOURCES For more than forty years the beautifully illustrated Architecture Form Space and Order has served as the classic introduction to the basic vocabulary of architectural design The updated and revised Fourth Edition features the fundamental elements of space and form and is designed to encourage critical thought in order to promote a more evocative understanding of architecture Architecture Form Space and Order distills complex concepts of design into a clear focus and brings difficult abstractions to life The book explains form and space in relation to light view openings and enclosures and explores the organization of space and the elements and relationships of circulation as well as proportion and scale In addition the text s detailed illustrations demonstrate the concepts presented and reveal the relationships between fundamental elements of architecture through the ages and across cultures This edition includes an access card with a redemption code for the online Interactive Resource Center which features thirty five animations flashcards of key architectural terms and an image gallery showcasing hundreds of photos that enrich the book s content Architectures of Colonialism Vera Egbers, Christa Kamleithner, Özge Sezer, Alexandra Skedzuhn-Safir, 2024-06-04 The question of what heritage is and how we deal with it is not a neutral one Recent events such as the Black Lives Matter movement and the toppling of monuments have made evident how much the colonial past is inscribed in our built environment at the same time colonialism continues to affect memorialization and historiography Hence those involved in architectural history are challenged to re consider their positionality Whose heritage are colonial sites

Which possibly silenced memories are attached to them How are archives and material evidence reassessed to bring forward the stories of marginalized subjects Following the call for decolonization this volume explores historical methodologies and shows the entanglement of narratives at architectural sites bringing together archaeology architectural history and heritage studies A contribution to the current debate on decolonization and memorialization Interdisciplinary perspectives on architecture and heritage International range of authors

House and Home Thomas Barrie, 2017-03-16 House and home are words routinely used to describe where and how one lives This book challenges predominant definitions and argues that domesticity fundamentally satisfies the human need to create and inhabit a defined place in the world Consequently house and home have performed numerous cultural and ontological roles and have been assiduously represented in scripture literature art and philosophy This book presents how the search for home in an unpredictable world led people to create myths about the origins of architecture houses for their gods and house tombs for eternal life Turning to more recent topics it discusses how writers often used simple huts as a means to address the essentials of existence modernist architects envisioned the capacity of house and home to improve society and the suburban house was positioned as a superior setting for culture and family Throughout the book house and home are critically examined to illustrate the perennial role and capacity of architecture to articulate the human condition position it more meaningfully in the world and assist in our collective homecoming
