A Little History of Religion Richard Holloway, 2016-01-01 For curious readers young and old a rich

and colorful history of religion from humanity's earliest days to our own contentious times. In an era of hardening religious attitudes and explosive religious violence, this book offers a welcome antidote. Richard Holloway retells the entire history of religion from the dawn of religious belief to the twenty-first century with deepest respect and a keen commitment to accuracy. Writing for those with faith and those without and especially for young readers, he encourages curiosity and tolerance, accentuates nuance and mystery, and calmly restores a sense of the value of faith. Ranging far beyond the major world religions of Judaism, Islam, Christianity, Buddhism, and Hinduism, Holloway also examines where religious belief comes from, the search for meaning throughout history, today's fascinations with Scientology and creationism, religiously motivated violence, hostilities between religious people and secularists, and more. Holloway proves an empathic yet discerning guide to the enduring significance of faith and its power from ancient times to our own.

A Little History of Literature John Sutherland, 2013-11-05 A much-loved author brings the world of literature alive for all ages. This little history takes on a very big subject: the glorious span of literature from Greek myth to graphic novels, from *The Epic of Gilgamesh* to *Harry Potter*. John Sutherland is perfectly suited to the task. He has researched, taught, and written on virtually every area of literature, and his infectious passion for books and reading has defined his own life. Now he guides young readers and the grown-ups in their lives on an entertaining journey through the wardrobe to a greater awareness of how literature from across the world can transport us and help us to make sense of what it means to be human. Sutherland introduces great classics in his own irresistible way, enlivening his offerings with humor as well as learning: *Beowulf*, Shakespeare, *Don Quixote*, the Romantics, Dickens, *Moby-Dick*, *The Waste Land*, Woolf, 1984, and dozens of others. He adds to these a less expected personal selection of authors and works, including literature usually considered well below serious attention: from the rude jests of Anglo-Saxon runes to *The Da Vinci Code*. With masterful digressions into various themes: censorship, narrative tricks, self-publishing, taste, creativity, and madness, Sutherland demonstrates the full depth and intrigue of reading. For younger readers, he offers a proper introduction to literature, promising to interest as much as instruct. For more experienced readers, he promises just the same.

A Little History of Mathematics Snezana Lawrence, 2025-04-08 A lively, accessible history of mathematics throughout the ages and across the globe. Mathematics is fundamental to our daily lives. Science, computing, economics: all aspects of modern life rely on some kind of maths. But how did our ancestors think about numbers? How did they use mathematics to explain and understand the world around them? Where do numbers even come from? In this *Little History*, Snezana Lawrence traces the fascinating history of mathematics from the Egyptians and Babylonians to Renaissance masters and enigma codebreakers. Like literature, music, or philosophy, mathematics has a rich history of breakthroughs, creativity, and experimentation. And its story is a global one. We see Chinese Mathematical Art from 200 BCE, the invention of algebra in Baghdad's House of Wisdom, and sangaku geometrical theorems at Japanese shrines. Lawrence goes beyond the familiar names of Newton and Pascal, exploring the prominent role women have played in the history of maths, including Emmy

Noether and Maryam Mirzakhani
