A Love Shared:

To Those I Love sharing What I Believe Larry V. Murphy, 2014-08-29 This little book is a brief summary of the author's more prevalent spiritual beliefs and understandings. The views shared are presented as quite generous comparisons to some spiritual views of the major religions of the world, actually and within the spirit of true tolerance. Though the author is passionate and often affirmative in his own beliefs, he makes every effort to steer clear of rigid dogma. In fact, the book was written largely as an offering of reason, the best way to counter the religious dogma already present in the world. The author does not wish to open more doors for arguing and fighting; rather, he thinks there is much common ground where spiritual views can be jointly shared by all in unity and universal Oneness. Though the author recognizes that humankind often displays great difficulty in reaching common ground for its greatest passions, the author also hopes this book will open dialog toward that end.

Living Beyond Survival: Laughing, Loving, Sharing...Life! Van Johns, 2011-09-27 Growth is a continuous process that begins at conception. Come, let us review the history events from a past life. As we take this walk together through time, think with expectation of a growing process.

Saint Augustine of Hippo, 2011-02-01 The restless heart and searching mind of this influential early church father can offer spiritual and intellectual companionship for your spiritual journey. Augustine of Hippo, 354-430, theologian, priest, and bishop is one of the most important figures in the development of Western Christianity. He is known as much for his long interior struggle that ended with conversion and baptism at age thirty-two as for his influential teachings on human will, original sin, and the theology of just war. Cherished as a model for the pursuit of a life of spiritual grace and criticized for his theory of predestination, Augustine is recognized as a living expression of the passion to understand and communicate the deeper meanings of human experience. With fresh translations drawn from Augustine's voluminous writings and probing facing-page commentary, Augustinian scholar Joseph T. Kelley, PhD, provides insight into the mind and heart of this foundational Christian figure. Kelley illustrates how Augustine's keen intellect, rhetorical skill, and passionate faith reshaped the theological language and dogmatic debates of early Christianity. He explores the stormy religious arguments and political upheavals of the fifth century, Augustine's controversial teachings on predestination, sexuality, and marriage, and the deep undercurrents of Augustine's spiritual quest that still inspire Christians today.

Hope and Glory Sam Gordon, 2016-03-13 Jesus is coming, the marvellously heartwarming theme of Paul's two electrifying epistles to the Thessalonian believers, is a stirring, rejuvenating communiqué of vibrant hope, one they desperately needed to hear. In today's post-9/11 world, where we seemingly lurch from crisis to crisis, this is a message we do well to take on board.

[Creating Your Giant Self](#) Robert Rose,2001-06-05 A critical reason this is well maybe not THE best a useful book is that YOU do the work The more you apply what you learn and understand the greater your growth This is not a quick fix book but one to assist you in a lifelong journey of self discovery It is difficult to understand what another person really thinks or feels because

it is dangerous to your career your relationships and even your existence You can learn to know who you really are As you travel you will find things about yourself you dislike and like The more honest you are the more you will like yourself and amazingly enough like and be liked more easily by others By using the metaphors of Giant and diminished self you have a means to constantly evaluate what you are experiencing As you do this you are getting more in tune with what you re thinking and feeling Most people are not congruent that is what they think and what they feel are not in synch In psychology when this happens it is called inappropriate affect The face you show does not reflect what you feel or think Yet in many situations you cannot because the repercussions are too great express or even show what you re thinking and feeling so what you say does not reflect your internal experience As the years pass you move further away from congruency and often can no longer even recognize what you are feeling and thinking You believe that what you re supposed to feel or think in that setting is what you re actually feeling and thinking I will try to help you discover who you are or could have become or still could become In metaphor it is creating your GIANT SELF which is the realization of your inherent potentials plus hard work This self is a marked contrast to your diminished self This self is the brainwashed depressed frightened rigid self that those with greater power have made you believe is who you are Without even knowing you I can say that you can become a person who can look yourself in the mirror and honestly like who you see It means opening up to ideas and concepts that may be confusing unnerving and may mean that your world as you know it now will never be the same Many of the ideas seem to be so simple and logical that you will say I knew that You may know it but have you had the courage to apply it I think one reason Dr Wilson believes in this book is that I send an honest searchlight into my mind body and soul Some of the things I discovered I did not like still do not like However I found that by challenging EVERYTHING I believed I was able to free myself from many of the errors of my past Besides my dark sides I found a rather decent intelligent person who was worthy of being loved and appreciated One thing I had to admit and face was the number and constancy of errors I made on a regular basis Humans are error making machines There are so many things that cause us to make mistakes that each of us could talk for hours about the stupid things we ve done How many times have you pulled instead of pushed even though the sign on the door was very clear I know I have I shake my head and laugh most of the time Other times my inattention or stupidity creates errors of judgement that could have caused a serious accident I misjudge how far away a car is before I shoot out into the intersection Or I m in a rush and I take a chance knowing full well that I m acting like a fool Take our senses Each information bit that stimulates one of our sensory nerves is affected by our attention toward it its magnitude its intensity its uniqueness and the number and sensitivity of the nerve endings that receive it It then travels through that sensory system with countless chances for the message to be garbled or misinterpre
