The Mother's Manual Audrye S. Arbe, 2019-08-05 Who am I and where do I come from? I feel it necessary to address all aspects of motherhood, so I decided to include both the sweetness and delight plus the shadow side of motherhood in this book. Some challenging life situations occur that are vital for us to consider, so I am including some disquieting statistics. Because many women and men have refrained from checking within themselves or making an examination on emotional, mental, physical, and spiritual planes about having children, hardships have been created both personally and planetary.

Homosexuality: Why Not? Prince M.D., M.S., 2008-09-13 Modern science has brought about a different understanding of homosexuality. In 1992, the World Health Organization declassified homosexuality from the group of sexual perversions. But debates rage on, and opinions and understandings continue to differ across Nations, within the Scientific community, and among adherents of Religions. What is the real new understanding? What do we need to know about homosexuality? Should homosexuals marry? What do the faiths say about homosexuality? Can sexuality be changed? What are the therapeutic options for this? Are people born that way? Can we raise our kids in a particular sexual direction? These are some of the questions this book attempts to answer.
