At the same time, the text illustrates the often profound ways through which a deeper exploration of these many different communities can reveal overlaps, shared horizons and common concerns in spite of and because of this very diversity. The new seventh edition introduces five brand new chapters, including chapters by three new contributors on the Middle East, South Asia and Korea, as well as a new chapter on Latin America, along with a new introduction written by Timothy Rommen. General updates have been made to other chapters, replacing visuals and updating charts and statistics. Excursions in World Music remains a favorite among ethnomusicologists who want students to explore the in-depth knowledge and scholarship that animates regional studies of world music.
