America S Lost Identity:

Immigration and National Identities in Latin America Nicola Foote, Michael Goebel, 2016-12-10 This groundbreaking study examines the connection between what are arguably the two most distinguishing phenomena of the modern world the unprecedented surges in global mobility and in the creation of politically bounded spaces and identities Jose C Moya author of *Cousins and Strangers* An excellent collection of studies connecting transnational migration to the construction of national identities Highly recommended Luis Roniger author of *Transnational Politics in Central America* The importance of this collection goes beyond the confines of one geographic region as it offers new insight into the role of migration in the definition and redefinition of nation states everywhere Fraser Ottanelli coeditor of *Letters from the Spanish Civil War* This volume has set the standard for future work to follow Daniel Masterson author of *The History of Peru* Between the mid nineteenth and mid twentieth centuries an influx of Europeans Asians and Arabic speakers indelibly changed the face of Latin America While many studies of this period focus on why the immigrants came to the region this volume addresses how the newcomers helped construct national identities in the Caribbean Mexico Argentina and Brazil In these essays some of the most respected scholars of migration history examine the range of responses some welcoming some xenophobic to the newcomers They also look at the lasting effects that Jewish German Chinese Italian and Syrian immigrants had on the economic sociocultural and political institutions These explorations of assimilation race formation and transnationalism enrich our understanding not only of migration to Latin America but also of the impact of immigration on the construction of national identity throughout the world Contributors J rgen Buchenau Jeane DeLaney Nicola Foote Michael Goebel Steven Hyland Jr Jeffrey Lesser Kathleen L pez Lara Putnam Raanan Rein Stefan Rinke Frederik Schulze

Translation and Identity in the Americas Edwin Gentzler, 2012-11-12 Translation is a highly contested site in the Americas where different groups often with competing literary or political interests vie for space and approval In its survey of these multiple and competing groups and its study of the geographic socio political and cultural aspects of translation Edwin Gentzler s book demonstrates that the Americas are a fruitful terrain for the field of translation studies Building on research from a variety of disciplines including cultural studies linguistics feminism and ethnic studies and including case studies from Brazil Canada and the Caribbean this book shows that translation is one of the primary means by which a culture is constructed translation in the Americas is less something that happens between separate and distinct cultures and more something that is capable of establishing those very cultures Using a variety of texts and addressing minority and oppressed groups within cultures *Translation and Identity in the Americas* highlights by example the cultural role translation policies play in a discriminatory process the consequences of which can be social marginalization loss of identity and psychological trauma *Translation and Identity the Americas* will be critical reading for students and scholars of Translation Studies Comparative Literature and Cultural Studies

H., James, Marlon, Hermond, Douglas, 2019-06-28 African Americans migrated from southern regions of the United States the Caribbean and Africa during the early 20th century settling in large urban communities in the Midwestern Northern and Western regions of the United States During the early 21st century African Americans continued their post industrialized transition from their initial urban locations to suburban and exurban locations with class income and education being the predominant factors in determining locations of choice However the result of this 21st century exodus gave rise to an increased sense of isolation loss of identity and the gradual erosion of political power unique to urban communities in the late 20th century African American Suburbanization and the Consequential Loss of Identity is a critical scholarly resource that examines the experiences of African Americans and the development of African American identities It represents an important opportunity for an examination of the implications of this 21st century exodus giving voice to all aspects of African American lived experiences in suburban communities Featuring a wide range of topics such as higher education criminal justice and social media this book is ideal for professionals educators social scientists political leaders law enforcement students and researchers

Impacts of Racism on White Americans In the Age of Trump Duke W. Austin, Benjamin P. Bowser, 2021-11-25 In this third iteration of the classic work *The Impacts of Racism on White Americans* 1981 1996 a new generation of scholars make the case that racism often negatively affects Whites themselves especially during the Trump era In 1981 *Impacts* introduced an alternative understanding of racism arguing that it went beyond white black and or inter race relations Instead the book proposed that the problem of race in the U S is fundamentally one of white identity and culture and that racism has substantial negative effects on White Americans This volume advances these propositions through three key areas 1 Trump era cultural and institutional racism bolstered by the use of historical notions of racial hierarchy 2 institutional and interpersonal racism which in turn drive individual racist behaviors and finally 3 racism s interactional sequences and how they impact anti racism efforts As each chapter author explores an iteration of these racisms they also explore how racist attitudes produce disadvantage among White Americans

On Art, Artists, Latin America, and Other Utopias Luis Camnitzer, 2010-01-01 Artist educator curator and critic Luis Camnitzer has been writing about contemporary art ever since he left his native Uruguay in 1964 for a fellowship in New York City As a transplant from the periphery to the center Camnitzer has had to confront fundamental questions about making art in the Americas asking himself and others What is Latin American art How does it relate if it does to art created in the centers of New York and Europe What is the role of the artist in exile Writing about issues of such personal cultural and indeed political import has long been an integral part of Camnitzer s artistic project a way of developing an idiosyncratic art history in which to work out his own place in the picture This volume gathers Camnitzer s most thought provoking essays texts written to make something happen in the words of volume editor Rachel Weiss They elaborate themes that appear persistently throughout Camnitzer s work art world systems versus an art of commitment artistic genealogies and how they are consecrated and most insistently the possibilities

for artistic agency The theme of translation informs the texts in the first part of the book with Camnitzer asking such questions as What is Latin America and who asks the question Who is the artist there and here The texts in the second section are more historically than geographically oriented exploring little known moments works and events that compose the legacy that Camnitzer draws on and offers to his readers
