An Unspeakable Secret:

An Unspeakable Secret Glenda Hunter, 2014-12-03 Hidden secrets usually don't hide forever as I found out in my own life I woke to the reality that I was hiding abuse in my background Abuse for me started at an early age It was so traumatic that I developed multiple personality disorder MPD or today DID just to be able to cope The great struggle began The greatest feeling that overwhelmed me was one of hopelessness But with the help of God and the encouragement of my loving husband good therapists and caring friends I began my journey to wholeness Can wholeness be found Yes it can

HumAnimal Kalpana Seshadri, 2012 Power and counterpower in the space of silence *Family Secrets and the Psychoanalysis of Narrative* Esther Rashkin, 2014-07-14 *Family Secrets and the Psychoanalysis of Narrative* is the first book to explore the implications of the psychoanalytic theory of the phantom for the study of narrative literature A phantom is formed when a shameful unspeakable secret is unwittingly transmitted through cryptic language and behavior transgenerationally from one family member to another The haunted individual to whom the encrypted secret is communicated becomes the unwitting medium for someone else's voice and the result is speech and conduct that appear incongruous or obsessive in a variety of ways Through close readings of texts by Conrad Villiers de l'Isle Adam Balzac James and Poe Esther Rashkin reveals how shameful secrets concealed within the unspoken family histories of fictive characters can be reconstructed from their linguistic traces and can be shown not only to drive the characters' speech and behavior but also to generate their narratives First articulated by the French psychoanalysts Nicolas Abraham and Maria Torok the theory of the phantom here represents a radical departure from Freudian Lacanian and other psychoanalytic approaches to literary interpretation In Rashkin's hands it also provides a response to structuralist and poststructuralist critiques of character analysis an alternative to deconstructive strategies of reading and a new vantage point from which to consider problems of intertextuality authorship and the formation and origins of narrative Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Spectralities Reader* Maria del Pilar Blanco, Esther Peeren, 2013-08-29 Ghosts spirits and specters have played important roles in narratives throughout history and across nations and cultures A watershed moment for this area of study was the publication of Derrida's *Specters of Marx* in 1993 marking the inauguration of a spectral turn in cultural criticism Gathering together the most compelling texts of the past twenty years the editors transform the field of spectral studies with this first ever reader employing the ghost as an analytical and methodological tool The *Spectralities Reader* takes ghosts and haunting on their own terms as wide ranging phenomena that are not conscripted to a single

aesthetic genre or style Divided into six thematically discreet sections the reader covers issues of philosophy politics media spatiality subject formation gender race and sexuality and historiography It anthologizes the previously published work of theoretical heavyweights from different disciplinary and cultural backgrounds such as Jacques Derrida Gayatri Spivak and Giorgio Agamben alongside work by literary and cultural historians such as Jeffrey Sconce and Roger Luckhurst

The Spectral Body Dragon Zoltan,2009-05-27 The Spectral Body Aspects of the Cinematic Oeuvre of Istv n Szab analyses some of the films made by Academy Award winner Hungarian filmmaker Istv n Szab to establish an interpretative matrix disclosing the root of haunting effects in the visual and the narrative levels of the diegeses By combining two distinct and often incongruous lines of psychoanalytic thought by Nicolas Abraham and Jacques Lacan Zolt n Dragon argues that these films are fuelled by the work of a phantom on all levels hiding the secrets of the family history of the characters and producing uncanny visual scenarios to make the act of hiding even more effective The book brings the reader into the realm of the phantom text generating the film texts and crypt screens of the oeuvre and investigates the causes of undiscussible and painful secrets that propel some pivotal characters to reappear in subsequent films apparently driven by a compulsion to continue their narration failing to finish their stories even when they appear to be successful The Spectral Body Aspects of the Cinematic Oeuvre of Istv n Szab introduces a visual reinterpretation of Abraham s phantom theory that opens up possibilities for an alternative way of studying film I first saw this work in the form of a full and detailed draft I was impressed by the boldness of the ideas the attempt to integrate and work with different theoretical positions and the quite extraordinary reading of the films of Istv n Szab There was clearly a powerful and creative and original intelligence at work A further draft accomplished one important thing that had been missing from the first one the direct analysis of the visual material and its contribution to the overall narrative and theoretical framework The work employs a psychoanalytic framework with some key concepts such as the phantom drawn from the work of Torok and Abraham This theory is fairly well known but it has not to my knowledge been used in any extensive way in the analysis of film texts before Zoltan also makes reference to Freud and uses some Lacanian ideas in his analysis at the level of the visual These multiple theoretical references are not inconsistent they are finely judged and are most productive Theory is never used as a grid to be imposed on the material There is a fine balance between theory and textual analysis that is hard to achieve but it is successful here I think that the position that Zoltan Dragon has forged for himself and from which he writes is a highly original and interesting one He has been most successful in developing his framework in relation to Szab s oeuvre which he knows in the greatest detail His readings of that oeuvre are rich and powerful and will provoke considerable debate in the world of film studies and also of psychoanalytical studies Parveen Adams Core Teaching Faculty London Consortium
