record what happens to us physically throughout our lives This is illustrated by the simple appearance of scars from injuries
sustained years and even decades ago Evidence such as scars also tells us how we used our joints or may have injured them
as children and adults Our bodies conform to the environment in which we live both outside and inside By examining and
observing these key clues a forensic investigator can reveal the unique character that tells the story of a person s life and
death Craniofacial Anatomy and Forensic Identification is an atlas that covers all aspects of facial reconstruction and
anatomy of the head and neck such as facial expression and the anatomic basis for facial development along with the effects
of muscle movement Written by a world renowned forensic artist with decades of experience as a scientific illustrator as well
as a portraitist anthropologist and lecturer in anatomy and biology the author is as much a scientist as an artist
Comprehensively addresses the history o facial reconstruction facial development muscle movements and bone physiology
used by forensic artists and forensic anthropologists Demonstrates techniques in mold making and sculpting to bring the
body to life Includes images from cadaver labs and recent case studies Provides detailed anatomy of vessels and nerves found
in the face including the eyes Details the muscles ligaments and tissues down to the skull Describes the changing face as it
ages **Ballas** James Edward Quibell,William Matthew Flinders Petrie,1896
