We (A Dystopian Science Fiction Classic) - The Original 1924 Unabridged Edition Yevgeny Zamyatin, 2024-01-04

In Yevgeny Zamyatin's groundbreaking novel *We*, readers are thrust into a dystopian future where individuality is suffocated by an all-encompassing state-driven ideology. Written in a unique blend of mathematical precision and lyrical prose, the narrative unfolds through the eyes of D-503, a loyal member of the One State who grapples with the clash between conformity and the awakening of his own desires. This seminal work, published in 1924, predates and arguably influences later dystopian classics, offering a prescient critique of totalitarianism and the mechanization of human life, all within the context of the burgeoning Soviet Union's socio-political landscape. Zamyatin himself, a revolutionary figure and visionary, encountered the ramifications of oppressive regimes firsthand, which fueled his artistic sensibilities and motivated his return to exploring themes of freedom, humanity, and the state's grip on personal identity. His experiences as an engineer and his exposure to the philosophical undercurrents of his time shaped his perspective on individualism versus collectivism, making *We* not only a work of fiction but a profound commentary on the human condition. *We* is an essential read for anyone interested in the origins of dystopian literature and the philosophical questions surrounding freedom and conformity. Its explorations resonate throughout modern literature and offer timeless insights into the complexities of society and the struggle for selfhood. Zamyatin's work will captivate and challenge you, inviting reflection on the balance between individual desires and societal demands.

We (A Dystopian Science Fiction Classic) - The Unabridged Original 1924 Edition Yevgeny Zamyatin, 2024-01-05

We is a dystopian novel which is set in a dystopian future police state. D-503 lives in the One State, an urban nation constructed almost entirely of glass, which allows the secret police spies to inform on and supervise the public more easily. The structure of the state is analogous to the prison design concept developed by Jeremy Bentham, commonly referred to as the Panopticon. Furthermore, life is organized to promote maximum productive efficiency along the lines of the system advocated by the hugely influential F.W. Taylor. People march in step with each other and wear identical clothing. There is no way of referring to people save by their given numbers. Males have odd numbers prefixed by consonants; females have even numbers prefixed by vowels. Along with Jack London's *The Iron Heel*, *We* is generally considered to be the grandfather of the satirical futuristic dystopia genre. Yevgeny Zamyatin (1884-1937) was a Russian author of science fiction and political satire. Due to his use of literature to criticize Soviet society, Zamyatin has been referred to as one of the first Soviet dissidents.
