The Bible's Many Voices Michael Carasik, 2014-01-01

The most common English translations of the Bible often sound like a single somewhat archaic voice In fact the Bible is made up of many separate books composed by multiple writers in a wide range of styles and perspectives It is as Michael Carasik demonstrates not a remote text reserved for churches and synagogues but rather a human document full of history poetry politics theology and spirituality Using historic linguistic anthropological and theological sources Carasik helps us distinguish between the Jewish Bible s voices the mythic the historical the prophetic the theological and the legal By articulating the differences among these voices he shows us not just their messages and meanings but also what mattered to the authors In these contrasts we encounter the Bible anew as a living work whose many voices tell us about the world out of which the Bible grew and the world that it created

Contextualizing Melodrama in the Czech Lands Judith Mabary, 2020-10-12 The mention of the term melodrama is likely to evoke a response from laymen and musicians alike that betrays an acquaintance only with the popular form of the genre and its greatly heightened drama exaggerated often to the point of the ridiculous Few are aware that there exists a type of melodrama that contains in its smaller forms the beauty of the sung ballad and in the larger scale works the appeal of the spoken play This category of melodrama is one that surfaced in many cultures but was perhaps never so enthusiastically cultivated as in the Czech lands The melodrama varied greatly at the hands of its Czech advocates While the works of Zdenk Fibich and his contemporary Josef Bohuslav Foerster a composer best known for his songs remained closely bound to the text

those of conductor composer Otakar Ostril reveal a stance that privileged the music and given their creator's orchestral experience are more reminiscent of the symphonic poem Fibich in his staged works and Josef Suk composer violinist and Dvořák's son-in-law in his incidental music reflect variously late nineteenth century Romanticism the influence of Wagner and early manifestations of Impressionism In its more recent guise the principles of the staged melodrama reside quite comfortably in the film score Judith A Mabary's important volume will be of interest not only to musicologists but those working in Central and East European studies voice studies European theatre and those studying music and nationalism
