A Christian Geologist Explains Why the Earth Cannot Be 6,000 Years Old Dr. Lorence G. Collins, 2021-03-24 A Christian Geologist Explains Why the Earth Cannot Be 6 000 Years Old Let s Heal the Divide in the Church By Dr Lorence G Collins This book is about the geology of the Earth Written by a fully committed Christian it asserts that accepting the knowledge provided by studies in science is in no way in conflict with following the teachings of Jesus If a Christian understands how God has done his creation then he she can be a better steward in taking care of the Earth and its life The general themes of the book are to expose the false beliefs of young Earth creationists regarding the age of the Earth being 6 000 years old and that Noah s Flood must have been worldwide global in extent and to suggest that the Bible is not a science text The contents of this book can be understood by both people trained in science and those who have no background in science It is intended to give a valuable source of insights about how science works to provide a way to support and guide a Christian witness to the world and to be a bridge to make this possible As Christians our greater mission is not to battle over divisions in religious beliefs but to heal the sick feed the hungry minister to the abandoned and so on

The Great Creation Debate Brad Freckleton, 2012-07 Why isn t the evolution of flight shown in the fossil record Bugs birds bats and dinosaurs flew and are shown fully formed in the fossil record but there are no animals with halfway wings in the fossil record leading from ground based animals to flying animals What is desperately wrong with the Grand Canyon if evolution is true Where are the massive signs of erosion between the sedimentary layers of the Grand Canyon if they were laid down a million years at a time Why does massive erosion only show up at the top Animals with well developed eyes show up suddenly in the fossil record as do flying animals It s the norm for plants and animals to show up in the fossil record with the same separations as we see in different types of living animals and plants today The second law of thermodynamics is a law of science that says everything left to its own will wear out run down It is a fundamental law of science So how did evolution accidentally go up How could a DNA molecule fumble together The cell needs DNA DNA needs the cell which came first Beneficial mutations also weaken in other areas and don t write evolutionary advancing DNA code Spiral galaxies which have the shape of a star fish that is spinning quickly throughout our universe like our Milky Way galaxy are supposed to be over 10 billion years old If they were over a billion years old they would lose their spiral arm shape The arms of our galaxy the Milky Way only show a maximum age of 0 3 billion years People want to know why they re here now and where they re going to go They want surety of truth also Read this book and see how well evolution holds up in all the sciences Read this book and see if life can have meaning direction and hope with surety For those who claim to be open minded put on your seatbelts and keep your arms inside as you ride the roller coaster of your own value systems

Friend of Science, Friend of Faith Gregg Davidson, 2019-11-19 A scientist explores the harmony between Christian faith and science Though some Christians and many skeptics see science and Christianity as locked in a never ending battle geologist Gregg Davidson contends that there is tremendous harmony between Scripture and modern

science Many apparent conflicts arise when the Bible is interpreted apart from its literary and historical contexts but when these are taken into account most alleged clashes resolve Proceeding from a belief that Scripture is inspired and without error and that God's creation should inform how we interpret the Bible Davidson shows that Scripture and science need not disagree on issues like the age of the earth Adam and Eve Noah's flood the origin and development of life and numerous related topics Rather Christians can rejoice at how God's glory is revealed in both the Bible and the natural world
