Speaking Truth to Power Aaron Wildavsky, 2017-09-29 One of the foremost experts in public policy here attempts not only to describe what public policy is but given societal changes in the last two decades to account for its present status To learn from the past in order to establish public policy as a discipline in its own right Wildavsky traces its motifs from their beginnings in the 1960s to the 1980s Starting from the premise that there has been growing polarization of political elites he shows how public policy as a field has had to face increased politicization For Wildavsky the field of public policy needs to incorporate more awareness of the human aspects of policy making he emphasizes the political choices to be made in a competitive environment and the social relations that sustain them When the first specialist schools devoted solely to public policy came into existence in the 1960s the programs of the Great Society were their main impetus With the disillusionment and failure of the Great Society the identity of public policy became transformed New theoretical issues had to be addressed In this volume Wildavsky provides a foundation for the theory no less than the practice of policy making Aaron Wildavsky is professor of political science University of California Berkeley He founded the School of Public Policy there and is presently its Director He was formerly Director of the Russell Sage Foundation He was the President of the American Political Science Association for the years 1986 1987

The Art and Craft of Policy Analysis Aaron Wildavsky, 2017-08-18 The Art and Craft of Policy Analysis is a classic work of the Public Policy discipline Wildavsky's emphasis on the values involved in public policies as well as the need to build political understandings about the nature of policy are as important for 21st century policymaking as they were in 1979 B Guy Peters critical introduction provides the reader with context for the book its main themes and contemporary relevance and offers a guide to understanding a complex but crucial text Re-Thinking Green Robert Higgs, 2005-07-15 Environmental quality has been a major public concern since the first Earth Day in 1970 yet the maze of environmental laws and regulations enacted since then has fostered huge government bureaucracies better known for waste and failure than for innovation and success Can we do better than this failed environmental bureaucracy The noted contributors to this volume answer with a resounding yes Re Thinking Green exposes the myths that have contributed to failed environmental policies and proposes bold alternatives that recognize the power of incentives and the limitations of political and regulatory processes It addresses some of the most hotly debated environmental issues and shows how entrepreneurship and property rights can be utilized to promote environmental quality and economic growth Re Thinking Green will challenge readers with new paradigms for resolving environmental problems stimulate discussion on how best to humanize environmental policy and inspire policymakers to seek effective alternatives to environmental bureaucracy

Public utilities law anthology, 1993 **Agents, Games, and Evolution** Steven Orla Kimbrough, 2011-12-19 Games or contexts of strategic interaction pervade and suffuse our lives and the lives of all organisms How are we to make sense of and cope with such situations How should an agent play When will and when won't cooperation arise and be maintained Using examples and a careful digestion of the literature Agents Games and Evolution Strategies at Work and Play addresses

these encompassing themes throughout and is organized into four parts Part I introduces classical game theory and strategy selection It compares ideally rational and the naturalist approach used by this book which focuses on how actual agents chose their strategies and the effects of these strategies on model systems Part II explores a number of basic games using models in which agents have fixed strategies This section draws heavily on the substantial literature associated with the relevant application areas in the social sciences Part III reviews core results and applications of agent based models in which strategic interaction is present and for which design issues have genuine practical import This section draws heavily on the substantial literature associated with the application area to hand Part IV addresses miscellaneous topics in strategic interaction including lying in negotiations reasoning by backward induction and evolutionary models Modelled after the authors Agents Games and Evolution course at the University of Pennsylvania this book keeps mathematics to a minimum focusing on computational strategies and useful methods for dealing with a variety of situations **American Book**
