Don't Tell Me Mark Schwieso, 2022-08-19 Today we live in a complacent country where only certain answers are acceptable In this book the author dares to go against accepted wisdom considering questions such as Is the divorce rate really 50% and if it isn't what is it and why should we care Why is the media telling us COVID 19 is so bad Do we really know Charles Darwin's theory of evolution to be true Has the Bible been disproven and debunked Other topics include the Big Bang Theory biological differences between men and women politics and religion random mutations UFOs and global myths The author also explains that the best lies are 99% true liars practice their craft using the truth to mislead others Moreover he notes that no matter what you believe truth is still true For instance even if a person believes they can fly if they jump off a ten story building they will still die upon hitting the ground Join the author as he asks questions that the establishment would prefer you keep to yourself by reading *Don't Tell Me*

Nullifying God H. Robert Wilson Ph.D., 2018-01-01 Evolution and Creation are in a spiritual battle Evolution scientists ignore dismiss and unequivocally reject Creation out of hand It is not science or fact as evolution is they say However *Nullifying God* shows that random Darwinian evolution does not have the direct evidence required to support the claim Not only that but it provides contrary evidence that evolution is biologically impossible Because that is the case evolution can only persist in the unchallengeable authority it needs to maintain its position by actively attempting to nullify its alternative Creation and therefore the Bible and God *Nullifying God* was especially written to empower and benefit believers who are not familiar with science to show them that evolution cannot be fact and is not science It does so by 1 providing them with a core foundation of applied science principles to rationally question evolution's claims then 2 guiding them into solid clear knowledge of why evolution is biologically impossible and finally 3 presenting them with examples that

document evolution's attempts to nullify God. The bottom line is Biblical Creation is the only answer that explains life. The Matriarchs of Genesis David J. Zucker, Moshe Reiss, 2015-08-27 Sarah Hagar Rebekah Leah Rachel Bilhah Zilpah These are the Matriarchs of Genesis. A people's self-understanding is fashioned on their heroes and heroines. Sarah, Rebekah, Leah, and Rachel, the traditional four Matriarchs, are important and powerful people in the book of Genesis. Each woman plays her part in her generation. She interacts with and advises her husband, seeking to achieve both present and future successes for her family. These women act decisively at crucial points through their actions and words; their family dynamics change irrevocably. Unlike their husbands, we know little of their unspoken thoughts or actions. What the text in Genesis does share shows that these women are perceptive and judicious, often seeing the grand scheme with clarity. While their stories are told in Genesis in the post-biblical world of the Pseudepigrapha, their stories are retold in new ways. The rabbis also speak of these women, and contemporary scholars and feminists continue to explore the Matriarchs in Genesis and later literature. Using extensive quotations, we present these women through five lenses: the Bible, Early Extra-Biblical Literature, Rabbinic Literature, Contemporary Scholarship, and Feminist Thought. In addition, we consider Hagar, Abraham's second wife and the mother of Ishmael, as well as Bilhah and Zilpah, Jacob's third and fourth wives. The Anti-Bible Ivan Green, 2024-09-29 The Anti-Bible is exactly what the name implies. It will take readers on a journey through all 66 books of the New International Version of the Holy Bible, exposing all the lies, exaggerations, contradictions, violence, hatred, absurdities, and immorality contained within. It will also show analyses of the Dead Sea Scrolls and Gnostic texts, pieces of original scriptures that were left out of modern publications. These will show even more contradictions and fairy tales, proving that the entire collection is man-made and engineered to manipulate and control the uninformed. Primarily, this book will serve as a reference for atheists in debates with Christians about nearly every part of the Bible. Secondly, it could also become a steppingstone for Christians who may be questioning and/or doubting their faith and who need a bit of help getting over that final existential hump, as it were. There has been an extreme invasion of religion, mainly Christianity, in the U.S.A. into the lives of atheists. The prominence of religious ignorance in the American government specifically has forced violent and hateful dogma into laws, schools, doctor offices, and bedrooms. This book provides a creative and peaceful protest against those actions. Amen. **The Divine Default** J. J. Dyken, 2013 J. J. Dyken takes commonly asserted religious claims and applies each of them to modern-day examples to demonstrate the often fallacious nature of religious belief. He uses a mixture of common sense and scrupulous logic to mount an attack on not only religion itself but also upon the religious pseudoscientists who try to justify their assertions with faulty science.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
