Democracy, Multiculturalism, and the Community College Robert A. Rhoads,James R. Valadez,2016-05-06 Based on five organizational case studies this book argues that community colleges face an identity crisis and must find ways of balancing the three traditional roles typically assumed by them transfer vocational and community education To emphasize one at the expense of another is to fail to meet the diverse needs of students who look to the community college as a source of opportunity and social mobility In addition community colleges must create an organizational context in which opportunities exist for culturally diverse students to participate as full members in the educational process The study uses democratic educational strategies first suggested by John Dewey as a foundation for developing a critical multicultural view of community college education The authors argue that critical multiculturalism moves beyond liberal views of cultural diversity and challenge academic institutions to take advantage of the varied experiences and perspectives that students from other cultures bring to education The book includes a reference section following the final chapter and a name and subject index

IS IT POSSIBLE FOR SENIORS TO AVOID A FALL? Antonio E. Morales-Pita Doble PhD,2023-09-28 *IS IT POSSIBLE FOR SENIORS TO AVOID A FALL* Falls are the leading cause of injury emergency room visits and hospitalizations for seniors in North America Tripping down can reduce independence and accelerate the need for long term care Systematically reading this book as well as introducing and embracing the author s recommendations related to physical exercising into their lives would most likely help seniors to avoid collapsing or plummeting to the floor In the introduction and first chapter of this book the writer analyzes important research contributions from Dr Angela Duckworth Dr Katherine Milkman as well as a fitness professional Amanda Sterczyk as far as physical exercising experiments are concerned At the end of the day the scientific groups could not get definite conclusions This author is convinced that one of the reasons why the experiments were not successful was that the word tenacity was not even included or mentioned as a possible factor related to the results of the research While chapter II may be interpreted as a wake up call to the readers about the direct physical consequences of

plunging chapter III stands out because it attempts to challenge them to understand not only the tables but also their conclusions and even to create their own in the third table A special characteristic of this chapter is that the author narrates his own experience introducing tenacity and being in control of his health Chapter IV is related to the five factors generally leading to a fall emphasizing the helping role of systematic exercising to reduce the chances of plummeting which requires the conscientious introduction of tenacity Additionally the author includes three factors that can help in avoiding dropping down for seniors according to his own successful experience Chapter V includes two very important topics 1 Twenty five suggestions of possible ways for seniors to avoid falling derived from the author s commitment and dedication to improve his health and 2 the rivalry or confrontation between tenacity and procrastination exemplified by the author s two main victories a learning English in Cuba during his early youth becoming a bilingual stenographer in less than three years and b entering upon the University of Havana without being allowed by the Cuban government representatives to finish High School and ranking as the salutatorian student amidst six hundred peers as well as being appointed as instructor of his own colleagues two years before finishing his career in economics Chapter VI deals with being in control of one s health by means of sixteen recommendations and eight symptoms of recognizing that health is not doing well while Chapter VII relates to the author s experience in the relationship between systematic exercising tenacity and sense of purpose Chapter VIII is dedicated to the positive effect of walking dogs on avoiding falls in seniors Chapter IX exemplifies the combination of tenacity and sense of purpose in preventing steering clear of or keeping away from falls confirmed by twenty examples of remarkably eminent persons sixty five % of which lived more than eighty years Measurement and Cumulative Record Index ,1952

Gender and Fair Assessment Warren W. Willingham, Nancy S. Cole, 2013-12-16 There have been many important changes in the participation of women and men in American society over the past quarter century Tests play a role in those changes by providing evidence of the diverse achievement and proficiency of women and men They aid the learning process and reflect inequalities in opportunity to learn and participate In addition they provide useful information in considering what alternatives in education and work make most sense for individuals and influence views about groups of students educational programs and a wide range of issues For all of these reasons it is important that tests assess fairly and reflect accurately the ways young people are and are not achieving as well as desired The test performance of women and men is a research topic of historical interest and has received much attention in recent years Because of this increased interest there is a great deal of new research and data available The purpose of the study presented in this volume was to review this new information with two objectives in mind to clarify patterns of gender difference and similarity in test performance and related achievements and to see what implications those findings might have for fair assessment and as a corollary examine the assessment process as a possible source of gender differences This study is interested in tests used in education to assess developed knowledge and skill In order to gain a broader view of gender similarity and difference the contributors looked at other types of measures and other characteristics of young women and men Their hope is to contribute to a firmer basis for insuring fairness in tests an objective which is particularly important as the field moves increasingly to new forms of assessment in which there is less experience
