Literature, Performance, and Somaesthetics Katarzyna Lisowska, Jarosław Woźniak, 2017-05-11 Literature Performance and Somaesthetics views textual and extra textual worlds as intimately connected as forming a continuum in fact The essays on literature philosophy and the arts gathered here derive their theoretical inspirations from two realms where embodiment and agency are particularly stressed namely from philosophical somaesthetics a discipline proposed by Richard Shusterman in 1999 and from performance studies remarkable for its current expansion In most general terms the point of convergence for somaesthetics and performativity is their stressing the agency of the embodied and sentient human self The contributors explore the question of agency in its various manifestations They examine the construction of literary characters with emphasis on the representation of their corporeality and affectivity They look into the problem of the formation of the literary canon as enacted rather than established and into literary history as retold rather than rewritten They also focus on the problems of literary reception considering it on the physical visceral level While showing keen interest in performance studies and somaesthetics the authors also bring in the expertise gained in their primary fields of research Hence the ideas explored in their essays are drawn from philosophy literary theory cultural studies psychology and hard science The essays here are concerned with a variety of generic forms epic literature lyrical poetry tragedy experimental novel thriller literary history theological treatise documentary flamenco and opera in order to outline the field in the humanities where literature philosophy and performance can meet and where literary studies can benefit from the approaches offered by performance studies and philosophical somaesthetics

Art as Performance, Story as Criticism Craig S. Womack, 2014-10-20 Pick up a work of typical literary criticism and you know what to expect prose that is dry pedantic well meaning but tedious slow going and essentially humorless But why should that be so Why can't more literary criticism have a political edge and be engaging and fast paced Why can't it include drama personal narrative and even humor Why can't criticism become an artistic performance rather than just a discussion of art Art as Performance Story as Criticism is Craig Womack's answer to these questions Inventive and often outrageous the book turns traditional literary criticism on its head rejecting distanced purely theoretical argumentation for intimate engagement with literary works Focusing on Native American literature Womack mixes forms and styles He is unafraid to combine meticulous research and carefully considered historical perspectives with personal reactions and reflections The book opens with a short story The Song of Roe N ld in which a Native filmmaker loses control of his movie project in part because of his homoerotic attraction to its star The following chapters or musings include original dramas while others more closely resemble traditional literary criticism such as essays discussing the lesser known plays of Lynn Riggs and the stories of Durango Mendoza Still other chapters defy easy categorization such as the piece Caught in the Current Clinging to a Twig in which Womack interweaves historical analysis of the state of the Creek Nation in 1908 with a vivid recreation of the last day on earth of Creek poet Alexander Posey Throughout the book the author offers his take on such controversial issues as the Cherokee freedmen issue and the ban on gay marriage In being different Womack seeks to breathe new life into literary analysis and introduce criticism to a wider audience Radical groundbreaking and refreshing Art as Performance Story as Criticism reinvents literary criticism for the twenty first century **Contemporary Performance and Political**

The Ecology of the Performance Art Process Angela Viora, 2025-02-25 This book offers a new dynamic and ecological perspective to analyse the process of performance art namely what occurs during the unfolding of a piece exploring the essence of its happening through the forces at play The author's aim is to provide a deeper understanding of performance art which the existing scholarship acknowledges as an art form that actively engages with the world Much work has been done on the transformative effects of performance art on the artists and the audiences and its impact on society over time The author takes this perspective further by asking how does this transformation happen Little work exists on exploring the forces and dynamics occurring while a performance is developing neither before nor after but during it This is the first and main gap that this book fills given the importance of process and processuality as the characterising features of this art form By filling this gap this book offers a new way to understand performances and their impact in the world and over time as well as providing practitioners with tools for performing and designing their works starting from the process rather than focusing on the outcomes This book studies the matrix of the performance art process by conceiving it as an ecosystem in which all the elements at play animate and inanimate are agentic and intertwine in relationships of mutual influence and exchange This book will be useful for scholars and practitioners of performance art and performance studies practice as research PaR visual culture art history and philosophy especially phenomenology Arts, Heritage and Performative Politics Laima Nomeikaite, Michael Haldrup, 2025-08-11 This pioneering book analyzes the intersection of arts heritage and performative politics challenging traditional distinctions between these disciplines Highlighting the value of art based approaches to heritage research it outlines diverse artistic practices to expand the boundaries of the field *The London Review of Politics, Society, Literature, Art, & Science*, 1863 (Con)Fusing Signs and Postmodern Positions Robert Neustadt, 2012-06-12 Foregrounding a strategy of experimental techniques which Neustadt call con fusing signs the book explores critical and political dimensions of contemporary Spanish American artistic practices that are often explained away in the vague name of postmodern fragmentation Con Fusing Signs explores the techniques consequences and purposes for this type of fragmentation This study reassesses the much discussed crisis of representation through an analysis of the complexity of political critique in areas as diverse and related as postmodernity military dictatorship and postcolonialism This book explores the manner in which multimedia artists Diamela Eltit Alejandro Jodorowsky and Guillermo G mez Pe a articulate political critiques through textual con fusion while paradoxically underscoring their inability to get outside of discourse *From Acting to Performance* Philip Auslander, 2002-04-12 This first collection of essays by performance theorist
