Department of State, 1986 Women on the Move Roger Gilles, 2018-10-01 The 1890s was the peak of the American bicycle craze and consumers including women were buying bicycles in large numbers Despite critics who tried to discourage women

from trying this new sport women took to the bike in huge numbers and mastery of the bicycle became a metaphor for women's mastery over their lives. Spurred by the emergence of the safety bicycle and the ensuing cultural craze, women's professional bicycle racing thrived in the United States from 1895 to 1902. For seven years, female racers drew large and enthusiastic crowds across the country, including Cleveland, Detroit, Indianapolis, Chicago, Minneapolis, St. Louis, Kansas City, and New Orleans, and many smaller cities in between. Unlike the trudging round the clock marathons, the men and their spectators endured, women's six-day races were tightly scheduled, fast-paced, and highly competitive. The best female racers of the era, Tillie Anderson, Lizzie Glaw, and Dottie Farnsworth, became household names and were America's first great women athletes. Despite concerted efforts by the League of American Wheelmen to marginalize the sport and by reporters and other critics to belittle and objectify the women, these athletes forced a turn of the century America to rethink strongly held convictions about female frailty and competitive spirit. By 1900, many cities began to ban the men's six-day races, and it became more difficult to ensure competitive women's races and attract large enough crowds. In 1902, two racers died, and the sport's seven-year run was finished, and it has been almost entirely ignored in sports history, women's history, and even bicycling history. *Women on the Move* tells the full story of America's most popular arena sport during the 1890s, giving these pioneering athletes the place they deserve in history. Kingsley L. Dennis, 2011-08-16. A call for a paradigm shift in human thinking in recognition of the interconnectedness of all things, a new mind for a new world. Explains how the instability of our current time is part of a larger cycle of human evolution that will soon turn toward renewal and regeneration. Reveals how to participate in the process of conscious evolution to maintain resilience during these transitional times. Examines new findings in quantum physics and quantum biology on the interconnectivity of all life and how to utilize this for conscious evolution. For centuries, indigenous wisdom traditions have talked of an epochal shift on the horizon of a spiritual renaissance for the earth and her living family. Now the timelines are converging, and the potential for an energetic upgrade for humanity is here, but first we must survive and evolve through the current period of transition. Explaining that evolution is not a gradual process but more like a shock to the system, radical waves of transformation after a period of dormancy, author Kingsley Dennis reveals that we are currently undergoing an evolutionary leap and shows not only how to survive but also thrive in this period of global upheaval and change. Examining the nature of evolutionary cycles, he explains that the instability we are now experiencing, climate change, economic meltdowns, and increasing political polarization, is the convergence of complex systems that have reached a critical state. What we need in order to push through to the coming spiritual renaissance is a paradigm shift in human thinking and perception, a conscious evolution in recognition of the interconnectedness of all things, a new mind for a new world. Examining new findings in quantum physics and quantum biology on the interconnectivity of all life, as well as opportunities for us to reawaken our slumbering souls, this book offers a glimpse of the new global society to come, a renewed humanity for the 21st

century and how each of us can best participate during the process of planetary transformation      **On the Contrary** Martha Rainbolt, Janet Fleetwood, 1984-06-30 On The Contrary contains a balance of writings by men and women The essays are presented in pairs a man and a woman writing on each topic This balanced juxtaposition allows students to discuss think and write about changing roles and relationships without being forced into either a feminist or traditionalist party line The essays in each section reverberate suggestively with each other and this effect is reinforced by the discussion questions writing topics and introductory material An additional table of contents arranges the essays according to rhetorical rubrics
