(South Africa). Department of Education, 2017 *The Rise of English* Rosemary Salomone, Rosemary C. Salomone, 2022 A

sweeping account of the global rise of English and the high stakes politics of language Spoken by a quarter of the world's

population English is today's lingua franca its common tongue The language of business popular media and international

politics English has become commodified for its economic value and increasingly detached from any particular nation This

meteoric rise of English has many obvious benefits to communication Tourists can travel abroad with greater ease Political

leaders can directly engage their counterparts Researchers can collaborate with foreign colleagues Business interests can

flourish in the global economy But the rise of English has very real downsides as well In Europe imperatives of political

integration and job mobility compete with pride in national language and heritage In the United States and England English

isolates us from the cultural and economic benefits of speaking other languages And in countries like India South Africa

Morocco and Rwanda it has stratified society along lines of English proficiency In *The Rise of English* Rosemary Salomone

offers a commanding view of the unprecedented spread of English and the far reaching effects it has on global and local

politics economics media education and business From the inner workings of the European Union to linguistic battles over

influence in Africa Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for

English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and

cultural borders **Quality education** Muchativugwa L. Hove, Martha Matashu, 2021-11-30 This book investigates the

fascinating lens through which we can understand the complex consequences of the economies of education social justice

challenges readers to imagine alternative futures predicated on the transformational capacity of a democratic South Africa

Contributors to this volume examine the many ways in which social justice and gendered violence mirror express project and

articulate the larger phenomenon of human rights violations in Africa and how in turn the discourse of human rights informs

the ways in which we articulate interrogate conceptualise enact and interpret quality education The book also wrestles with

the linguistic contradictions and ambiguities in the articulation of quality education in public and private spaces This book is essential reading for scholars seeking a solid grounding in exploring quality education the instances of epistemic disobedience the political implications of place and power and human rights in theory and practice *Annual Performance Plan* Mpumalanga (South Africa). Department of Education, 2016 Suid-Afrikaanse Hofverslae, 2014 Promoting effective enforcement of the prohibition against corporal punishment in South African schools Faranaaz Veriava, 2014-06-13 The prohibition against corporal punishment is an integral part of the broader transformation of South African education The prohibition seeks to replace South Africa's violent and authoritarian past with an ethos respectful of human dignity and bodily integrity **Mud to bricks: A review of school infrastructure spending and delivery** Carmen Abdoll, Conrad Barberton, 2014-07-04 The Centre for Child Law commissioned this study by Cornerstone Economic Research to track school infrastructure spending and delivery The report written by Carmen Abdoll and Conrad Barberton makes the concerning finding that the national Department of Basic Education has woefully underspent the School Infrastructure Backlog grant for two years running In 2011 2012 spending was a little over 10 per cent and only at 23 per cent in 2012 2013 at the end of the third quarter The ASIDI target for the number of schools to be built in 2011 2012 and 2012 2013 was 49 However only 10 had been completed by the end of the first year They predict that if the DBE continues at the same delivery rate a realistic timeframe for the eradication of schools with inappropriate structures is probably 2023 24 They make recommendations which if followed could shorten the delay significantly This study shows the importance of monitoring and evaluating progress against court orders and out of court settlements to ensure that the right to a basic education is made real

range of media representations of borders imagined borders border struggles collectivity boundaries and scenes of translation films documentaries literary texts photographs websites and other media texts and artistic interventions The book makes a case for bringing together media texts and sociocultural experiences across multiple platforms It argues that this transdisciplinary approach is singularly suited to the age of media convergence when words speech music videos and images compete for attention on the screens of digital devices where the written oral aural and visual are constantly mixed and remixed But it also reminds the reader of the digital divides linked to socioeconomic cultural language and geopolitical borders With its focus on sociocultural borders and translation this book will be of interest to scholars and students of media studies African studies and cultural studies *Top Companies* ,2007
