All Joy And No Fun The Paradox Of Modern Parenthood:

All Joy and No Fun Jennifer Senior, 2014-02-19 Award winning journalist Jennifer Senior tries to tackle the issue of the effects of children on their parents isolating and analyzing the many ways in which children reshape their parents lives whether it s their marriages their jobs their habits their hobbies their friendships or their internal senses of self She argues that changes in the last half century have radically altered the roles of today s mothers and fathers making their mandates at once more complex and far less clear Recruiting from a wide variety of sources in history sociology economics psychology philosophy and anthropology she dissects both the timeless strains of parenting and the ones that are brand new and then brings her research to life in the homes of ordinary parents around the country The result is an unforgettable series of family portraits starting with parents of young children and progressing to parents of teens Through lively and accessible storytelling Senior follows these mothers and fathers as they wrestle with some of parenthood s deepest vexations and luxuriate in some of its finest rewards *All Joy and No Fun* makes us reconsider some of our culture s most basic beliefs about parenthood all while illuminating the profound ways children deepen and add purpose to our lives *All Joy and No Fun* is original and essential reading for mothers and fathers of today and tomorrow

Purpose Samuel T. Wilkinson, 2024-03-05 By using principles from a variety of scientific disciplines Yale Professor Samuel Wilkinson provides a framework for human evolution that reveals an overarching purpose to our existence Generations have been taught that evolution implies there is no overarching purpose to our existence that life has no fundamental meaning We are merely the accumulation of tens of thousands of intricate molecular accidents Some scientists take this logic one step further suggesting that evolution is intrinsically atheistic and goes against the concept of God But is this true By integrating emerging principles from a variety of scientific disciplines ranging from evolutionary biology to psychology Yale Professor Samuel Wilkinson provides a framework of evolution that implies not only that there is an overarching purpose to our existence but what this purpose is With respect to our evolution nature seems to have endowed us with competing dispositions what Wilkinson calls the dual potential of human nature We are pulled in different directions selfishness and altruism aggression and cooperation lust and love When we couple this with the observation that we possess a measure of free will all this strongly implies there is a universal purpose to our existence This purpose at least one of them is to choose between the good and evil impulses that nature has created within us Our life is a test This is a truth as old as history it seems that has been espoused by so many of the world s religions From a certain framework these aspects of human nature including how evolution shaped us are evidence for the existence of a God not against it Closely related to this is meaning What is the meaning of life Based on the scientific data it would seem that one such meaning is to develop deep and abiding relationships At least that is what most people report are the most meaningful aspects of their lives This is a function of our evolution It is how we were created

Motherdom Alex Bollen,2025-03-04 When Alex Bollen had her first baby the fear of being a bad mother made her guilty and anxious A researcher with twenty years experience she went looking for answers To her surprise the studies she looked at were exaggerated and misrepresented in the media forming the foundation for what she calls Good Mother myths These myths are an assortment of narratives ideologies and stereotypes deployed to censure mothers and blame them for every societal ill Incensed by the way bad science is used to shame mothers Alex Bollen decided to set the record straight With meticulous research and keen insight Motherdom exposes both the shaky science and unjustified prescriptions about how mothers should naturally behave Competing visions of birth natural versus medical mean women can be criticised whatever happens raising the odds that birth will be a damaging even deadly experience Mothers are judged and belittled whether they breast or bottle feed their babies Bogus claims about brain development and dodgy attachment theories mean that whatever mothers do it is never enough This has to stop We must replace Good Mother myths with a realistic approach to parenting Alex Bollen proposes motherdom a more expansive conception of motherhood which values and respects the different ways people raise their children Instead of finding fault with mothers Motherdom shifts our focus to the relationships and resources children need to flourish

Radical Challenges to the Family Ashley Lavelle,2016-03-03 Defending the nuclear family and extolling family values have long been central features of politics in capitalist societies in spite of radical left challenges from social counter cultural and gay rights movements This book examines these challenges as they emerged in the 1960s and 1970s re appraising their relevance in the light of recent developments including the spread of more diverse family forms and the rise of the same sex marriage movement Drawing on archival research in the US UK and Australia the author asks what the emergence of same sex marriage movements and legislation mean for challenges to the nuclear family in the light of an original general hostility to marriage and family structures in the gay liberation movement whilst considering the extent to which the nuclear family might be included in the list of social and economic institutions subject to criticism on the part of more recent anti capitalist movements such as Occupy A detailed study of the extent to which the nuclear family remains susceptible to the radical critiques of the last century *Radical Challenges to the Family* examines whether the original challenges shed light on ensuring social problems including domestic violence child abuse homophobia and growing marital dissatisfaction As such it will appeal to scholars of sociology and politics with interests in gender and sexuality the sociology of the family and feminist thought

Overinvested Nina Bandelj,2026-01-20 What happens when children become investment projects and child rearing becomes exhausting labor Parents are exhausted When did raising children become such all consuming never ending incredibly expensive and emotionally absorbing effort In this eye opening book Nina Bandelj explains how we got to this point how we turned children into financial and emotional investments and child rearing into laborious work At the turn of the twentieth century children went from being economically useful often working to support families to being seen by their parents as vulnerable and emotionally priceless In the new millennium however parents have become overinvested in the emotional economy of parenting Analyzing in depth interviews with parents national financial datasets and decades of child rearing books Bandelj reveals how parents today spend save and even go into debt for the sake of children They take on parenting as the hardest but most important job and commit their entire selves to being a good parent The economization and emotionalization of society work together to drive parental overinvestment offering a dizzying array of products and platforms to turn children into human capital from financial instruments to extracurricular programs to therapeutic parenting advice And yet Bandelj warns the privatization of child rearing and devotion of parents monies emotions and souls ultimately hurt the well being of children parents and society Overinvested offers a compelling argument that we should reimagine children and what it means to raise them

The Obligated Self Mara H. Benjamin, 2018-05-24 Mara H Benjamin contends that the physical and psychological work of caring for children presents theologically fruitful but largely unexplored terrain for feminists Attending to the constant concrete and urgent needs of children she argues necessitates engaging with profound questions concerning the responsible use of power in unequal relationships the transformative influence of love human fragility and vulnerability and the embeddedness of self in relationships and obligations Viewing child rearing as an embodied practice Benjamin's theological reflection invites a profound reengagement with Jewish sources from the Talmud to modern Jewish philosophy Her contemporary feminist stance forges a convergence between Jewish theological anthropology and the demands of parental caregiving
