

ALICE IN WONDERLAND

OPTION A - ALICE: Why, how impolite of him. I asked him a civil question, and he pretended not to hear me. That's not at all nice. I say, Mr. White Rabbit, where are you going? Hmmm. He won't answer me. And I do so want to know what he is late for. I wonder if I might follow him. Why not? There's no rule that I may not go where I please. I--I will follow him. Wait for me, Mr. White Rabbit. I'm coming, too! How curious. I never realized that rabbit holes were so dark . . . and so long . . . and so empty. I believe I have been falling for five minutes, and I still can't see the bottom! Hmph! After such a fall as this, I shall think nothing of tumbling downstairs. How brave they'll all think of me at home. Why, I wouldn't say anything about it even if I fell off the top of the house! I wonder how many miles I've fallen by this time. I must be getting somewhere near the center of the earth. I wonder if I shall fall right through the earth! How funny that would be. Oh, I think I see the bottom. Yes, I'm sure I see the bottom. I shall hit the bottom, hit it very hard, and oh, how it will hurt!

Rob Wagner's Beverly Hills Script ,1929 *From Alice to Algernon* Holly Blackford,2024-01-12 During the late Victorian period Charles Darwin's theories took the world by storm and the impact of evolution on research into the developing human mind was impossible to overlook Thereafter the study of children and childhood became a means to theorize imagine and apply the concept of evolution in a broad range of cultural productions Beginning with the watershed Victorian era *From Alice to Algernon* The Evolution of Child Consciousness in the Novel examines the creative transformation these theories underwent as they filtered through the modern novel especially those that examined the mind of the child By examining the connection between authors and trends in child psychology author Holly Blackford explains why many modern novels began to focus on child cognition as a site for intellectual and artistic exploration In each chapter of this book select novels of the late nineteenth or twentieth century are paired with a specific moment or movement from the history of developmental psychology Novels such as Mark Twain's *Huckleberry Finn* and Henry James's *What Maisie Knew* or Radclyffe Hall's less canonical *The Well of Loneliness* and even Mark Haddon's *The Curious Incident of the Dog in the Night Time* showcase major questions about human epistemology through their child characters From Lewis Carroll's *Alice and her looking glass* to Richard Wright's *Bigger Thomas* and the murder of Mary Dalton to the chaotic *Neverland* symbolizing the unmappable child's brain a literary tradition of child consciousness has emerged as an experimental site for the unstable concepts of evolution civilization and development By situating literature about children within concurrent psychological discourses Blackford demonstrates how the modern novel contributed to the world's understanding of the boundless wonders and discernible limits of child consciousness
