Helen Hester, Nick Srnicek

All Joy And No Fun The Paradox Of Modern Parenthood:

All Joy and No Fun Jennifer Senior, 2014-02-19 Award winning journalist Jennifer Senior tries to tackle the issue of the effects of children on their parents isolating and analyzing the many ways in which children reshape their parents lives whether it s their marriages their jobs their habits their hobbies their friendships or their internal senses of self She argues that changes in the last half century have radically altered the roles of today s mothers and fathers making their mandates at once more complex and far less clear Recruiting from a wide variety of sources in history sociology economics psychology philosophy and anthropology she dissects both the timeless strains of parenting and the ones that are brand new and then brings her research to life in the homes of ordinary parents around the country The result is an unforgettable series of family portraits starting with parents of young children and progressing to parents of teens Through lively and accessible storytelling Senior follows these mothers and fathers as they wrestle with some of parenthood s deepest vexations and luxuriate in some of its finest rewards All Joy and No Fun makes us reconsider some of our culture s most basic beliefs about parenthood all while illuminating the profound ways children deepen and add purpose to our lives All Joy and No Fun is original and essential reading for mothers and fathers of today and tomorrow

Purpose Samuel T. Wilkinson, 2024-03-05 By using principles from a variety of scientific disciplines Yale Professor Samuel Wilkinson provides a framework for human evolution that reveals an overarching purpose to our existence Generations have been taught that evolution implies there is no overarching purpose to our existence that life has no fundamental meaning We are merely the accumulation of tens of thousands of intricate molecular accidents Some scientists take this logic one step further suggesting that evolution is intrinsically atheistic and goes against the concept of God But is this true By integrating emerging principles from a variety of scientific disciplines ranging from evolutionary biology to psychology Yale Professor Samuel Wilkinson provides a framework of evolution that implies not only that there is an overarching purpose to our existence but what this purpose is With respect to our evolution nature seems to have endowed us with competing dispositions what Wilkinson calls the dual potential of human nature We are pulled in different directions selfishness and altruism aggression and cooperation lust and love When we couple this with the observation that we possess a measure of free will all this strongly implies there is a universal purpose to our existence This purpose at least one of them is to choose between the good and evil impulses that nature has created within us Our life is a test This is a truth as old as history it seems that has been espoused by so many of the world s religions From a certain framework these aspects of human nature including how evolution shaped us are evidence for the existence of a God not against it Closely related to this is meaning What is the meaning of life Based on the scientific data it would seem that one such meaning is to develop deep and abiding relationships At least that is what most people report are the most meaningful aspects of their lives This is a function of our evolution It is how we were created

Motherdom Alex Bollen,2025-03-04 When Alex Bollen had her first baby the fear of being a bad mother made her guilty and anxious A researcher with twenty years experience she went looking for answers To her surprise the studies she looked at were exaggerated and misrepresented in the media forming the foundation for what she calls Good Mother myths These myths are an assortment of narratives ideologies and stereotypes deployed to censure mothers and blame them for every societal ill Incensed by the way bad science is used to shame mothers Alex Bollen decided to set the record straight With meticulous research and keen insight Motherdom exposes both the shaky science and unjustified prescriptions about how mothers should naturally behave Competing visions of birth natural versus medical mean women can be criticised whatever happens raising the odds that birth will be a damaging even deadly experience Mothers are judged and belittled whether they breast or bottle feed their babies Bogus claims about brain development and dodgy attachment theories mean that whatever mothers do it is never enough This has to stop We must replace Good Mother myths with a realistic approach to parenting Alex Bollen proposes motherdom a more expansive conception of motherhood which values and respects the different ways people raise their children Instead of finding fault with mothers Motherdom shifts our focus to the relationships and resources children need to flourish

Overinvested Nina Bandelj,2026-01-20 What happens when children become investment projects and child rearing

becomes exhausting labor Parents are exhausted When did raising children become such all consuming never ending incredibly expensive and emotionally absorbing effort In this eye opening book Nina Bandelj explains how we got to this point how we turned children into financial and emotional investments and child rearing into laborious work At the turn of the twentieth century children went from being economically useful often working to support families to being seen by their parents as vulnerable and emotionally priceless In the new millennium however parents have become overinvested in the emotional economy of parenting Analyzing in depth interviews with parents national financial datasets and decades of child rearing books Bandelj reveals how parents today spend save and even go into debt for the sake of children They take on parenting as the hardest but most important job and commit their entire selves to being a good parent The economization and emotionalization of society work together to drive parental overinvestment offering a dizzying array of products and platforms to turn children into human capital from financial instruments to extracurricular programs to therapeutic parenting advice And yet Bandelj warns the privatization of child rearing and devotion of parents monies emotions and souls ultimately hurt the well being of children parents and society Overinvested offers a compelling argument that we should reimagine children and what it means to raise them *Big Picture Parents* Harriet Connor, 2017-01-20 Being a parent in the modern world is tough We are often overwhelmed with fear about damaging our children guilt about our imperfections and confusion about our role Harriet Connor knows these feelings well But hers is not just another parenting book full of shoulds and shouldn'ts to make you feel worse Rather she invites you to step back and consider the bigger picture What is the purpose of life and parenthood What are our human limitations How can we cope with our guilt and fear What are our family's values and how do we pass them on What is our family's structure and place within the wider community When she was desperate for answers Harriet Connor turned to the ancient wisdom of her ancestors the Bible She went looking for little pieces of grandmotherly advice but what she found was a grand vision a big picture that made sense of both life and parenthood Whether you are new to the Bible or have read it before you will not regret taking time to reflect on its message which has given comfort and guidance to generations of parents just like you *Swimming Upstream* Laura Hensley Choate, 2016 This book empowers parents by providing needed information and strategies they can use with their daughters to build a strong foundation of resilience which in turn gives girls the tools necessary to navigate our toxic landscape *The Matter of Little Losses* Rachel Marie Kang, 2024-02-06 Life is full of love but it is also full of loss Like paper cuts to the heart every big and seemingly insignificant loss the loss of friendships faith dreams health community and everything in between grieves us more than we think it will and often more than we let on Why Because they matter In this compassionate and deeply personal book Rachel Marie Kang invites you to see and be seen in the midst of your sorrow your suffering your story Through prose and poetry that gives voice to all the things we lose along the way this gracious book will help you ponder your loss without judgment remember what was and make meaning of your memories reflect on what is yet to be as you heal

with hope You don't have to bury your pain and you don't have to pretend you're over it just because the world thinks you should be Let Rachel walk hand in hand with you giving space for sorrow and welcoming you as you find your way along the path to healing *Second Thoughts* Lynn Berger, 2025-09-23 A lovely searching meditation on second children on whether to have one and what it means to be one that seamlessly weaves pieces of art and culture on the topic with scientific research and personal anecdotes The decision to have more than one child is at least as consuming as the decision to have a child at all and yet for all the good books that deliberate on the choice of becoming a parent there is far less writing on the choice of becoming a parent of two and all the questions that arise during the process Is there any truth in the idea of character informed by birth order or the loneliness of only children What is the reality of sibling rivalry What might a parent to one or two come to regret Lynn Berger is here to fill that gap with the curious reflective *Second Thoughts* Grounded in autobiography and full of considered allusion careful investigation and generous candor it's an exploration specifically dedicated to second children and their particular too often forgotten lot Warm and wise intimate and universal at once it's a must read for parents to be and want to be parents of one parents of two or more and second children themselves

Handing Down the Faith Christian Smith, Amy Adamczyk, 2021 This book is about how American religious parents approach the handing on of their religious practices and beliefs to their children We know a lot about the importance of parents in faith transmission and factors that influence its effectiveness But we know much less about the actual beliefs feelings and activities of the parents themselves when it comes to the intergenerational transmission of religious faith and practice Analyzing Violence Against Women Wanda Teays, 2019-04-01 This timely anthology brings into sharp relief the extent of violence against women Its range is global and far reaching in terms of the number of victims There are deeply entrenched values that need to be rooted out and laid bare This text offers a philosophical analysis of the problem with important insights from the various contributors Topics range from sexual assault to media violence prostitution and pornography domestic violence and sexual harassment Each of the four parts include essays which tackle these issues and provide us with tools for bringing about change The philosophical approaches to the topic give readers insight into the harms of interpersonal violence and its impact on the lives of its victims *Analyzing Violence Against Women* calls us to examine public policies and work for systemic change In the process we are reminded that the concerns of the discipline of Philosophy encompasses issues with a wider scope Students will especially benefit from seeing how the various authors grapple with this pressing issue and clarify why we need to bring about change
