Science Fair Projects About Planet Earth Robert Gardner, 2016-12-15 Hands-on experiments are a great way to engage young scientists. Instead of simply reading facts, they will experience the science that is happening in front of their eyes. The simple experiments in this book, illustrated in color, will unlock the secrets of planet Earth, including why Earth has layers, how continents move, and how we know Earth is round. By the time young readers are finished with the activities in this book, they will be ready to design some of their own to enter in their next science fair.

Science Fair Projects About Rocks and Minerals Robert Gardner, 2016-12-15 The hands-on experiments in this book, illustrated in color, will unlock the secrets of rocks and minerals, including how sedimentary rock is different from metamorphic rock, what is in soil, and what minerals can be found at home. Some will even give readers ideas for their own science fair project. All they need are some simple materials, most of which can be found around the home, school, or neighborhood.

Science Fair Projects About Water and Soil Robert Gardner, 2016-12-15 Award-winning author Robert Gardner makes earth science fun. Using common materials found in the home or school, students can perform simple hands-on experiments and find out what an aquifer is, if water ever disappears, and in what type of soil plants grow best. The follow-up section to every activity includes narrative that explains the scientific concepts of each experiment. Color illustrations and a glossary add even more to this fun title.
