social structures manifests both a variety of points of departure and at the same time the manifold conversations that are possible in the field of culture Focusing particularly on the work of St John Paul II the first essay examines the answer of reason and the answer of faith to the same question What is man Conversion too entails an unexpected relationship to natural truth which in its own way is both adequate and inadequate to salvation Communication as it were runs throughout these essays however in particular there is a need to enrich our human understanding of the process of coming to ourselves with the insights of spiritual discernment Axiomatically however it is possible to say that just as we come to exist through a relationship to others so our healing and holiness are manifest through our relationship to others in the Other Furthermore while it is ultimately true that we exist as individually rooted in the social structure of our origin and the times in which we live we need to critically participate in the dialogue which identifies our common reality and not live our lives covered in psycho social labels of one kind or another As a whole then there is an incomparable range and depth to dialogue Indeed given the many critical situations in the world it is increasingly indispensable and essential that humanity choose the incredible wealth of dialogue in contrast to the possibility of a polarised and conflictual structure between people and peoples

Words from Awaki Bernetha George MD,2014-11-20 Dont believe the hype believe what you see Apocalypse as we have come to fear is not apocalypse as it truly is We live today in the time of apocalypse and for some it is pure torment For those around the world living with bombs raining down on them yes that is apocalyptic torture as we feared For those thousands and millions throughout the universe visited and killed by the deadly flu and flu like diseases SARS swine flu bird flu West Nile virus etc Ebola tuberculosis measles cholera dengue fever EV D68 and HIV AIDS yes those are apocalyptic diseases as we feared For those ravished killed left homeless and totally dispossessed by these record breaking seemingly wicked weather events we are currently experiencing yes they would agree that these are for certain apocalyptic changes as we feared However given there are over seven billion of us on the planet and those apocalyptic events mentioned have only killed millions not billions of us they dont

seem to rise to the level of chaos and destruction we have been conditioned to fear as being apocalyptic Nevertheless our over exaggerated deep seated and conditioned fears notwithstanding Armageddon is upon us and the signs of it have been for almost twenty years that we know of Those above mentioned apocalyptic occurrences are the signs we were all told would be by John the Revelator in Revelation November 1995 to May 1996 no fewer than seventy of us were told by an angel Awaki and his Angels of God that the signs had already begun and that Armageddon would begin in the year 2000 Our story no matter how far fetched it may seem is true The evidentiary events of war disease and bizarre weather changes we witness daily provide for us the credibility of what we were told The angel Shakardak told us Some will see and they will believe some will not see and they will believe some will hear and they will believe and some will not hear and they will believe and then there will be those who will see and they will not believe and there will be those who will hear and they will not believe

Being and Belief Douglas Vickers,2013-01-30 The confession the church makes to the world sits oddly in the contemporary cultural complex Intellectual fashions in the marketplace of ideas have moved beyond an accommodation of biblical theological categories Philosophy is unsure of its status in an amorphous postmodernism and theology threatens to degenerate into intellectual experimentation They have become mutually suspicious and hesitant of conversation But a heavy fault lies with the church s own confessional status For what is it the church has to say to the world Has it preserved confessional continuity with the Reformation theology that rediscovered its biblical foundations and liberated it from intellectual and confessional shackles Has the church surrendered the possibility of relevance by having lost its own historic identity And is it necessary to conclude as a result that contemporary culture is no longer penetrable by any word from the old wells of divine disclosure In this brief but challenging book Douglas Vickers brings the Christian confession to the

forefront of consideration and reestablishes a theology grounded in historic verities sustained by the scriptural declarations In straightforward and accessible terms Being and Belief addresses the meaning of biblical truth for Christian understanding and Christian life

Buddhist Meditation Edward Conze,2013-10-16 As an intensely practical religion Buddhism has concentrated on devising a great number of meditations In recent years psychologists have shown great interest in the therapeutic value of these meditations but accurate information about them has been hard to come by The most outstanding original documents have now been made accessible by Edward Conze who translated them from Pali Sanskrit and Tibetan The volume originally published in 1956 also deals with the meaning of Buddhist meditation and the relation of its methods and presuppositions to modern psychology
