Bonazzi,Angela Ulacco,Filippo Forcignanò,2019-04-09 The volume *Thinking Knowing Acting Epistemology and Ethics in Plato and Ancient Platonism* aims to offer a fresh perspective on the correlation between epistemology and ethics a topic of central importance in the Platonic tradition which has not yet received the attention it deserves The first part deals with the social juridical premises of Plato s philosophy with particular regard to the relation between science and practical reason The second part investigates the reception and development of these problems in Aristotle and the Platonic tradition Other papers on Solon and Galen show that the conflict between knowledge and political action was also a central topic for the other Greek thinkers and contribute by contrast to a better evaluation of the originality of Platonism Knowledge and Ignorance of Self in Platonic Philosophy James M. Ambury,Andy German,2019 The only available volume of essays from scholars of every interpretative viewpoint on self knowledge and self ignorance in Plato s thought *The Shadow Scholar* Dave Tomar,2012-09-18 A stunning tale of academic fraud shocking and compelling The Washington Post Dave Tomar wrote term papers for a living Technically the papers were study guides and the companies he wrote for there are quite a few are completely aboveboard and easily found with a quick web search For as little as ten dollars a page these paper mills provide a custom essay written to the specifics of any course assignment During Tomar s career as an academic surrogate he wrote made to order papers for everything from introductory college courses to Ph D dissertations There was never a shortage of demand for his services The Shadow Scholar is the story of this dubious but all too common career In turns shocking absurd and ultimately sobering Tomar explores not merely his own misdeeds but the bureaucratic and cash hungry colleges lazy students and even misguided parents who help make it all possible Daughters of Dunn House 1953 Hildred Roach,Maryann Rozzell,2023-03-15 About the Book *Daughters of Dunn House 1953* is a collection of first person accounts from seven octogenarians who reflect upon overviews of their lives from 1953 to the present lifelong friendships made at Dunn House dorm and the exciting careers generated by the opportunity to participate in the Ford Foundation Early Entrant Program at Fisk University without having first finished high school Stories should appeal to all ages for topics range from pertinent historical eras family genealogy educational and personal experiences from childhood and adult levels glimpses of undergraduate HBCUs in action versus several graduate institutions explorations of places from the U S and abroad to differences in character and personal problem solving About the Author Hildred Roach a retired professor from the University of D C earned music degrees from Fisk and Yale universities and did further study at the University of Ghana and the Juilliard School of Music A pioneer of Black Music studies in the 1960s she joined Peoples Congregational Church Alpha Kappa Alpha and was married to the late Atty James Stafford Her special interests are theater genealogy politics comedy and the promotion of peace and love among human beings Co Editor Maryann Rozzell after graduating from Fisk University received Certification in Physical Therapy from the University of Pennsylvania and began her career just at the end of the polio era She later earned a Master s degree from George Washington University Her interest in travel and service led her to

Spellbound Daniel Z. Lieberman, MD,2022-08-23 Psychiatrist Daniel Z Lieberman MD reveals how to join forces with your unconscious to make better decisions find more meaning in everyday life and develop a richer more balanced way of living The conscious mind the part of your mental life you experience directly is responsible for only a tiny sliver of what science says is going on inside your brain Most of what you experience your moods and the things you like or dislike most of who you are comes from a much more mysterious part of your mind the unconscious And to really understand the influences of the unconscious says psychiatrist Daniel Z Lieberman coauthor of *The Molecule of More* we need to look to something often considered science s alter ego magic Drawing on the work of Swiss psychiatrist Carl Jung and with deep dives into what we can learn from ancient mystical traditions from alchemy to numerology to meditation *Spellbound* weaves together ancient magical traditions psychological research and the latest neuroscientific discoveries in order to bridge the gap between the conscious and unconscious mind Like it or not your unconscious is currently the source of most of your choices It s the source of your passions your energy and your gut instinct It can help you solve seemingly impossible problems with the gift of inspiration But it s not always working in your favor The unconscious is wild and untamed often leading us down self destructive paths that leave us baffled by our own decisions *Spellbound* helps you take a new path one where you learn how to recognize the influences of the unconscious and make it an ally in helping you become the person you were meant to be The human mind is perhaps the most mysterious thing in the universe Science is only beginning to uncover its secrets and some believe that we may never fully plumb its depths But the ancient traditions of magic traditions of understanding that have been built up over centuries give us another window into the hidden facets of our humanity After all as the visionary Arthur C Clarke once said Any sufficiently advanced technology is indistinguishable from magic *Neurath Reconsidered* Jordi Cat,Adam Tamas Tuboly,2019-02-12 This highly readable book is a collection of critical papers on Otto Neurath 1882 1945 It comprehensively re examines Neurath s scientific philosophical and educational contributions from a range of standpoints including historical sociological and problem oriented perspectives Leading Neurath scholars disentangle and connect Neurath s works ideas and ideals and evaluate them both in their original socio historical context and in contemporary philosophical debates Readers will discover a new critical understanding Drawing on archive materials essays discuss not only Neurath s better known works from lesser known perspectives but also his lesser known works from the

better known perspective of their place in his overall philosophical oeuvre Reflecting the full range of Neurath's work this volume has a broad appeal Besides scholars and researchers interested in Neurath Carnap the Vienna Circle work on logical empiricism and the history and philosophy of science this book will also appeal to graduate students in philosophy sociology history and education Readers will find Neurath's thoughts described and evaluated in an accessible manner making it a good read for those beyond the academic world such as social leaders and activists The book includes the edited 1940-45 Neurath Carnap correspondence and the English translation of Neurath's logic papers Augustine's Confessions Robert Hunter Craig, 2020-10-29 Augustine's Confessions Conversion and Consciousness argues two original positions concerning the structure and meaning of the Confessions by Augustine The structure is found to be a tool used by Augustine in his earlier pre Confessions writings in which he uses the Allegory of the Cave in book VII of the Republic by Plato to both describe human consciousness and as a structural framework for his own life story As with Plato's allegory Augustine then uses Books X-XIII to do what the author calls Scriptural Philosophical analysis of the allegorical prayer previously given The author shows that the Confessions is really an allegorical quasi prayer that shows Augustine's state of mind or disposition through space time and at the same time uses different personas schools of thought and metaphysical constructs to show the inadequacy of Plato's consciousness model of the cave to truly describe human ratiocination within consciousness in its totality Synchronic Synthetic Triplex SST or body mind God Will substance Instead Augustine demonstrates the superiority of the Christian conversion to that of the Platonic as described both by Platonic books and the books of the Platonists The Christian conversion is based on the incarnate Wisdom of Christ Jesus within the Cave World *Cosmic Consciousness and Human Excellence* Mahmoud Masaeli, Rico Sneller, 2019-01-29 Cosmoconsciousness or cosmic consciousness is a term used to characterize a transcendence of the limits of self consciousness As an ultra state of illumination of the mind the roots of the conception are embodied in the quest for a spiritual connection with multi dimensional cosmos This quest searches for spiritual development as a pathway to human excellence and can be associated with the mystics of ancient wisdom as well as contemporary psycho spiritual analysts After its emergence in the late 19th century cosmic consciousness rapidly became a source of inspiration for transpersonal psychology moral therapy and a thoughtful link to mystical quantum physics By encouraging a spiritual way of perceiving the real world cosmic consciousness also provides a source of inspiration for human excellence as the central idea of global ethics In this perspective the world cannot be changed for the better without changing individual consciousness Global concerns including ecological issues violence and acts of terrorism materialistic gratification and hedonism could not be addressed effectively unless people's consciousness is changed Cosmic consciousness by the very perception of the inner life has the potential to struggle with global concerns and hence it holds a promise of human excellence This book discusses cosmic consciousness against the backdrop of the emergence of the rational and autonomous conception of the self and the modern psychological depiction of selfhood It places the idea of

cosmic consciousness at the centre of contemporary arguments on the nature of consciousness
