Lost Chords and Christian Soldiers Ian Bradley, 2013-07-22 Arthur Sullivan is best known as W S Gilbert's collaborator in the Savoy Operas Sullivan was regarded as the nation's leading composer of sacred oratorios on a par with Mendelssohn and Brahms Ian Bradley provides the first detailed comprehensive critical study and review of Sullivan's church and sacred music

A History of the Music for Wind Band Leon J. Bly, 2023 The book provides a historical survey of the wind band's music and denotes how historical and cultural developments have influenced it over the course of time Although the modern wind band developed first in the 19th century it has its roots in the wind music of ancient times and music survives that has been composed since the Middle Ages Therefore this book covers the music from that time to the present including the dance music of the Renaissance the Harmoniemusik of the Classical Period and the nationalistic music of the Romantic Period as well as the major wind band repertoire developed after 1900

The Hallelujah Effect Babette Babich, 2016-03-16 This book studies the working efficacy of Leonard Cohen's song Hallelujah in the context of today's network culture Especially as recorded on YouTube k d lang's interpretation's of Cohen's Hallelujah embody acoustically and visually viscerally what Nietzsche named the spirit of music Today the working of music is magnified and transformed by recording dynamics and mediated via Facebook exchanges blog postings and video sites Given the sexual religious core of Cohen's Hallelujah this study poses a phenomenological reading of the objectification of both men and women raising the question of desire including gender issues and both homosexual and heterosexual desire A review of critical thinking about musical performance as currency and consumed commodity takes up Adorno's reading of Benjamin's analysis of the work of art in the age of mechanical reproduction as applied to music radio sound and the persistent role of recording consciousness Ultimately the question of what Nietzsche called the becoming human of dissonance is explored in terms of both ancient tragedy and Beethoven's striking deployment of dissonance as Nietzsche analyses both as playing with suffering discontent and pain itself a playing for the sake not of language or sense but musically as joy

Messiaen's Musical Techniques: The Composer's View and Beyond Gareth Healey, 2016-04-22 Despite Messiaen's position as one of the greatest technical innovators of the twentieth century his musical language has not been comprehensively defined and investigated The composer's 1944 theoretical study *The Technique of My Musical Language* expounds only its initial stages and while his posthumously published *Traité de rythme de couleur et d'ornithologie* contains detailed explanations of selected techniques in most cases the reader is left to define these more precisely by observing them in the context of Messiaen's analyses of his own works Technical processes are nevertheless in many cases the primary components of a work or movement For instance personages dominate *Joie du sang des toiles* from the *Turangala symphonie* and in certain cases such as *L'change* from the *Vingt regards sur l'Enfant Jésus* the process asymmetric augmentation is the only structuring element present Given this reliance on idiosyncratic techniques clear comprehension of the music is impossible

without a detailed knowledge of Messiaen's methods Gareth Healey charts their development and interconnections considers their relationship with formal structures and applies them in refined and extended form to works for which Messiaen himself left no published analysis Choral Artistry Micheál Houlahan, Philip Tacka, 2023-01-31 Choral Artistry provides a practical and organic approach to teaching middle school to college level choral singing and sight reading according to the Kodály Concept of Music Education grounded in current research from the fields of choral pedagogy music theory music perception and cognition **Hymns and Hymnody: Historical and Theological Introductions, Volume 2** Mark A.

Lamport, Benjamin K. Forrest, Vernon M. Whaley, 2019-05-24 Hymns and the music the church sings in worship are tangible means of expressing worship And while worship is one of if not the central functions of the church along with mission service education justice and compassion and occupies a prime focus of our churches a renewed sense of awareness to our theological presuppositions and cultural cues must be maintained to ensure a proper focus in worship Hymns and Hymnody Historical and Theological Introductions is a sixty chapter three volume introductory textbook describing the most influential hymnists liturgists and musical movements of the church This academically grounded resource evaluates both the historical and theological perspectives of the major hymnists and composers who have impacted the church over the course of twenty centuries Volume 1 explores the early church and concludes with the Renaissance era hymnists Volume 2 begins with the Reformation and extends to the eighteenth century hymnists and liturgists Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty first century Each chapter contains these five elements historical background theological perspectives communicated in their hymns compositions contribution to liturgy and worship notable hymns and bibliography The mission of Hymns and Hymnody is 1 to provide biographical data on influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these composers have communicated in the theology of their hymns We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology This latter aspect we contend is missing yet important in accessible formats for the current literature *The Abingdon Creative Preaching Annual 2014* Jenee Woodard, 2013 Introducing The Abingdon Creative
