Meeting,1988 Karl Pearson Theodore M. Porter,2010-01-02 Karl Pearson founder of modern statistics came to this field by way of passionate early studies of philosophy and cultural history as well as ether physics and graphical geometry His faith in science grew out of a deeply moral quest reflected also in his socialism and his efforts to find a new basis for relations between men and women This biography recounts Pearson s extraordinary intellectual adventure and sheds new light on the inner life of science Theodore Porter s intensely personal portrait of Pearson extends from religious crisis and sexual tensions to metaphysical and even mathematical anxieties Pearson sought to reconcile reason with enthusiasm and to achieve the impersonal perspective of science without sacrificing complex individuality Even as he longed to experience nature directly and intimately he identified science with renunciation and positivistic detachment Porter finds a turning point in Pearson s career where his humanistic interests gave way to statistical ones in his Grammar of Science 1892 in which he attempted to establish scientific method as

the moral educational basis for a refashioned culture In this original and engaging book a leading historian of modern science investigates the interior experience of one man s scientific life while placing it in a rich tapestry of social political and intellectual movements Keynes and His Battles The late Gilles Dostaler,2007-01-01 This fascinating book is the first to bring together and examine all aspects of the life and work of one of the most influential thinkers of the last century John Maynard Keynes whose theses are still hotly debated It combines in an accessible unique and cohesive manner analytical biographical and contextual elements from a variety of perspectives Gilles Dostaler studies in detail the battles that Keynes led on various fronts politics philosophy art and of course economics in the pursuit of a single and lifelong goal to radically transform society to create a better world a world pacified and freed from the neurotic pursuit of financial wealth and economic rentability with art at its pinnacle Containing detailed presentations of the Bloomsbury group and the political history of Great Britain Keynes and his Battles is an essential reference to this most important of 20th century figures whose central message remains as topical today as it ever was The study also contains a unique chronology of Keynes s life and historical events portraits of Keynes by his friends and contemporaries as well as a full bibliography of all his books chapters contributed to books journal articles and reviews Scholars students and researchers of economics the history of economic thought in particular political science sociology history philosophy and the history of arts will find this an absorbing and revealing work The book should also interest journalists decision makers in society and all those who are preoccupied by the problems of our time Teaching Statistics Andrew Gelman,Deborah Nolan,2002-08-08 Students in the sciences economics psychology social sciences and medicine take introductory statistics Statistics is increasingly offered at the high school level as well However statistics can be notoriously difficult to teach as it is seen by many students as difficult and boring if not irrelevant to their subject of choice To help dispel these misconceptions Gelman and Nolan have put together this fascinating and thought provoking book Based on years of teaching experience the book provides a wealth of demonstrations examples and projects that involve active student participation Part I of the book presents a large selection of activities for introductory statistics courses and combines chapters such as First week of class with exercises to break the ice and get students talking then Descriptive statistics collecting and displaying data then follows the traditional topics linear regression data collection probability and inference Part II gives tips on what does and what doesn t work in class how to set up effective demonstrations and examples how to encourage students to participate in class and work effectively in group projects A sample course plan is provided Part III presents material for more advanced courses on topics such as decision theory Bayesian statistics and sampling Economic Developments In India : Volume - 116 Analysis, Reports, Policy Documents Raj Kapila,Uma Kapila (eds.),2007 **Excel 2016 for Biological and Life Sciences Statistics** Thomas J. Error in Economics Julian Reiss, 2016-02-04 What is the correct concept behind measures of inflation Does money cause business activity or is it the other way around Shall we stimulate growth by raising aggregate demand or rather by lowering taxes and thereby providing incentives to produce Policy relevant questions such as these are of immediate and obvious importance to the welfare of societies The standard approach in dealing with them is to build a model based on economic theory answer the question for the model world and then apply the results to economic phenomena outside Data come in if at all only in testing a limited number of the model's consequences Despite some critical voices economic methodology too has by and large subscribed to a theory first approach to applied economics Error in Economics systematically develops an alternative to the theory based orthodoxy It places the methodical study of evidence at the centre of the scientific enterprise and thus provides a foundation for a methodology of evidence based economics But the book does not stop at the truism that claims should be based on the best available evidence Rather detailed studies in the areas of measurement causal inference and policy analysis show what it means for a claim to be evidence based in the context of a concrete case The examples discussed concern topics as diverse as consumer price indices radio spectrum auctions the transmission mechanism natural experiments on minimum wages and the evaluation of counterfactuals for policy Error in Economics is essential reading for economic methodologists philosophers of science and anyone interested in how claims about socio economic matters are validated
