Reading Programs for Young Adults Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the

library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs

Meinong's Theory of Knowledge Marie-Luise Schubert Kalsi, 2012-12-06 In recent years there has been a renewal of interest in Meinong's work but since the bulk of it is still encased in his quite forbidding German most students are limited to the few available translations and to secondary sources Unfortunately Meinong has been much maligned only in a few instances with good reason and has consequently been dealt with lightly Meinong stood at a very important junction of European philosophical and scientific thought In all fields physics chemistry mathematics psychology philology revolutionary strides were being made Philosophy on the other hand had run its post Kantian course New philosophical thinkers came from different disciplines For example Frege and later Russell were mathematicians Boltzmann and Mach were physicists Earlier Bolzano and then Brentano were originally theologians and Meinong was a historian 1 The sciences with their new insights and theories offered an enormous wealth of information which needed to be absorbed philosophically but traditional philosophy could not deal with it Physics presented a picture of reality which did not fit into the traditional schemes of empiricism or idealism Ontological and epistemological questions became once again wide open issues For example atoms at first were still considered to be theoretical entities
