

USING A MANNEQUIN

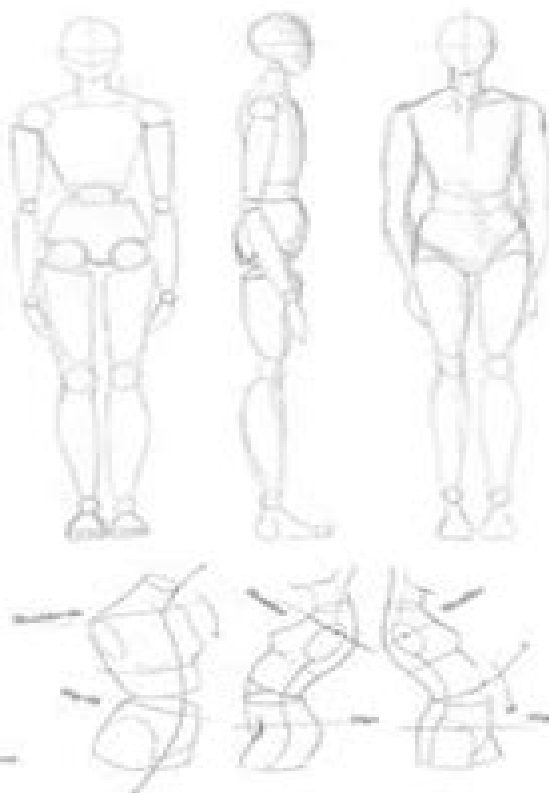

A mannequin (also called a model or dummy, for figure or dress form) is an often articulated doll used for artistic, fashion, anatomical, medical, and other purposes in design or the sciences.

The artist/mannequin already handles some of the body's basic shapes, rounded, geometric shapes. The mannequin will have some degree of volume loss if you are putting your mannequin in different poses and poses drawing is. If you are adding a drawing mannequin, it can be helpful as you a mannequin to provide specific poses that you find particularly difficult.

Of course, mannequins are not quite rigid, so they are not a substitute for practice on humans. The key point of the step and drawing life of the figure (or character) is to be able to make your figure more realistic.

PRACTICE DRAWING SHAPES

Commonly, shapes of all kinds can be used to construct almost any complex object. You can use them to create a simple, while a more complex one will require a combination of the many other shapes.

Building a drawing that is composed of geometric shapes will require that you start from a point of view. Starting from a point of view, you can build a simple, while a more complex one will require a combination of the many other shapes. DRAWING A HEAD STARTS WITH A CIRCLE, AN oval, AND A CROSS

They need to be positioned depending on where the face is located. There is more on this in the section on head and head.

- The circle represents the skull when the face is located.
- The oval is the front of the face (and jaw).
- The cross is the middle of the face, and the circle is the face when the face is located.
- Another oval can be added to the side of the head when the face is located.

DRAWING FEET

Using shapes to help you construct a drawing that is useful in constructing them from looking at.

Ensure you have the basic shape of the foot with a central line.
