Education R. Luckin,K.R. Koedinger,J. Greer,2007-06-29 The nature of technology has changed since Artificial Intelligence
in Education AIED was conceptualised as a research community and Interactive Learning Environments were initially
developed Technology is smaller more mobile networked pervasive and often ubiquitous as well as being provided by the
standard desktop PC This creates the potential for technology supported learning wherever and whenever learners need and
want it However in order to take advantage of this potential for greater flexibility we need to understand and model learners
and the contexts with which they interact in a manner that enables us to design deploy and evaluate technology to most
effectively support learning across multiple locations subjects and times The AIED community has much to contribute to this
endeavour This publication contains papers posters and tutorials from the 2007 Artificial Intelligence in Education
