Television** Wikipedia contributors, *Gone Hunting* Cecy Robson, 2018-10-24 I need good characters in order to truly enjoy a book series NEED them This has been my main attraction to this series from the beginning it has such a great set of them Cecy continues to keep the Weird Girls series fun and exciting Christy's Love of Books The rest of the werewolf pack might consider Aric Connor to be omniscient and destined to save the world when evil returns to claim it But for the most part fifteen year old Aric ignores the confirmations of his powers taking everything in stride until he meets her Celia Wird wasn't supposed to awaken naked in the mountains of Colorado not when she was just stalking her prey in a filthy alley several states away She especially wasn't supposed to meet Aric the handsome werewolf who comes to her aid As a supernatural tasked with protecting the earth Aric sympathizes with Celia's dangerous situation He's also struck by her beauty and kindness Yet as much as Aric welcomes Celia her arrival isn't a peaceful one Dark forces stir in Celia's presence resolute on killing her Aric and his inner beast are adamant about keeping Celia safe and with them But there's a time and a place for love and Aric and Celia might not survive long enough to find it

Unearthed Cecy Robson, 2019-09-24 Fae was once a flourishing paradise Until Death turned greedy and destroyed it targeting the creatures who inhabited it Those who survived escaped to Earth's realm but Death wasn't far behind Olivia Finn is just another pixie trying to blend in among humans and hide from the death hounds who devoured her family Clinging to the talisman that keeps her veiled from those who hunt her she believes she is safe Until Death finds her and discovers she's immune to its grip Now that Olivia's power is unearthed she is sought by Fae who see her as their savior and stalked by dark entities compelled to destroy her Can she trust the King of the Dead who has sworn to train and protect her Or should she obey her instincts that warn he desires more Olivia can no longer hide from Death To survive she must seek it **The Transcendent Vision of Mythopoeic Fantasy** David S. Hogsette, 2022-07-22 An ever expanding critical library on fantasy fiction requires an analysis of why the genre is so ubiquitous enduring and beloved This work analyzes the mythic elements in foundational fantasy texts arguing that mythopoeic fantasy reveals timeless truths that link human cultures past and present Through close readings of works like *Phantastes* *The King of Elfland's Daughter* *The Fellowship of the Ring* *The Lion the Witch and the Wardrobe* *A Wizard of Earthsea* *The Neverending Story* *A Wrinkle in Time* and *Out of the Silent Planet* this book explores how mythopoeic fantasy speaks to the deepest concerns of the human heart It investigates the genre's use of an imagination that is sometimes atrophied by the demands of contemporary life and explores how fantasy provides restoration consolation and hope within a cultural context that too often decries such ideas Each chapter focuses on a

representative text providing author background and engaging relevant scholarship on a variety of relevant thematic issues Offering new insights on these classic texts by drawing upon post secular critical approaches this work is suitable for both new and seasoned students of fantasy

Story Mode Trevor Strunk, 2021-11-15 Once considered niche fringe and the hobby of only outsiders or loners video games have rapidly become one of the most popular and influential artistic forms of this century Their imagery is near ubiquitous children adults and even professional athletes know what a Fortnite dance is without having played the game and every conversation about violence in media eventually turns toward Grand Theft Auto We've reached a point where through streaming platforms like Twitch games don't even need to be played to be enjoyed as whole robust communities form around watching others play Games have grown into more than just products they're touchstones meaning that they've become popular enough for something radical to have happened even while culture shapes our games games have simultaneously begun shaping our culture In *Story Mode* video games critic and host of the No Cartridge podcast Trevor Strunk traces how some of the most popular and influential game series have changed over years and even decades of their continued existence and growth We see how the Call of Duty games once historical simulators that valorized conflicts like World War II went modern complete with endless conflicts false flag murders of civilians and hyperadvanced technology It can be said that Fortnite's runaway popularity hinges on a competition for finite resources in an era of horrific inequality Strunk reveals how these shifts occurred as direct reflections of the culture in which games were produced thus offering us a uniquely clear window into society's evolving morals on a mass scale *Story Mode* asks the question Why do video games have a uniquely powerful ability to impact culture Strunk argues that the participatory nature of games themselves not only provides players with a sense of ownership of the narratives within but also allows for the consumption of games to be a revelatory experience as the meaning of a game is oftentimes derived by the manner in which they are played Combining sharp criticism of our most beloved and well-known video game series with a fascinating discussion of how our cultural values form *Story Mode* is a truly original examination of the unique space games now occupy from one of the sharpest games critics working today
