Historians consider the biblical account of Noah and the Deluge as a myth However this famous event occurred at the earliest times of recorded history Sumerian King List Today scientists believe in the last ice age called Pleistocene ending in 10 000 BCE but there is no witness of this planetary cataclysmic event and its existence is based solely on the controversial interpretation of its consequences and their dating The existence of erratic blocks and the disappearance of mammoths are presented as evidence of the last glaciation However despite dating obtained by 14C calibrated by dendrochronology is considered absolute by most experts its confrontation with the Egyptian chronology in which some dates are fixed by astronomy reverses this widespread belief and shows that dates obtained by 14C increase exponentially before 2200 Thus the rate of 14C tends gradually to 0 around 3500 which implies an important consequence before 3500 14C dating is no longer possible

The Trojan War: Chronological, Historical and Archaeological Evidence Gerard Gertoux, 2015 The Trojan War is the foundation of Greek history If Greek historians had little doubt of its existence they remained extremely sceptical regarding its mythological origin Archaeology has confirmed one essential point there was indeed a general conflagration in the Greek world around 1200 BCE the assumed period of that war which caused the disappearance of two powerful empires Mycenaean on one hand and Hittite with its vassals on the other hand The inscriptions of Ramses III s year 8 describe actually a general invasion of the Mediterranean by the Sea Peoples A precise chronological reconstruction shows that there was a confrontation between a Greek heterogeneous confederation consisting of pirates and a set of vassal kingdoms of the Hittite empire such as Troy and Ugarit which ended with their complete mutual destruction in 1185 BCE the climax of the Trojan War This conclusion was already that of Eratosthenes
