Catherine Cavadini Rabia Gregory Arthur Holder Jason Kalman Suzanne LaVere Hannah Matis Bernard McGinn Timothy H Robinson and Karl Shuve Franz Liszt's Songs for Voice and Piano Małgorzata Gamrat,2023-11-27 How does a Romantic composer approach the poetry he sets as raw material to be remade a pretext for self expression a sanctified artefact or a message to be illustrated with music In my book I examine Franz Liszt s songs for voice and piano which remain little known to scholars artists and music lovers alike The objective is to present Liszt s songs in all their complexity and diversity as well as identifying the key elements of the composer s broadly understood song writing technique both those that make him unique and those that relate him to the European tradition This approach also makes it possible to shed light on a major

though previously neglected aspect of the composer's workshop namely his work with the poetic text which to Liszt was just as important as the musical setting *The Song of Songs in the Early Middle Ages* Hannah W. Matis, 2019-01-28 In *The Song of Songs in the Early Middle Ages* Hannah W Matis examines how the Song of Songs the collection of Hebrew love poetry was understood in the Latin West as an allegory of Christ and the church This reading of the biblical text was passed down via the patristic tradition established by the Venerable Bede and promoted by the chief architects of the Carolingian reform Throughout the ninth century the Song of Songs became a text that Carolingian churchmen used to think about the nature of Christ and to conceptualize their own roles and duties within the church This study examines the many different ways that the Song of Songs was read within its early medieval historical context *Wedding, Gender, and Performance in Ancient Greece* Andromache Karanika, 2024-09-11 *Wedding Gender and Performance in Ancient Greece* traces the wedding song tradition its imagery and its tropes as a genre that became crystallized throughout the ages It explores how wedding poetics permeates ancient Greek literature It first analyzes how explicit or implicit matrimonial references shape archaic epic diction and become an integral part of epic discourse orally circulating texts such as wedding songs could have a life of their own but beyond their original context could also become an integral part of a different genre especially epic and drama This author discusses the multiple platforms that enrich the wedding song tradition including children's songs hymns paeans and ululations arguing for a combination of ritualized discourse with ludic childhood poetics With an approach from cognitive and trauma studies such references can be more revealing of the female experience than previously acknowledged This book resists the idea that a wedding constitutes an initiation ritual arguing that what on the surface may seem like a transition to a new phase reveals other underlying trends that work against the concept of a passage It further considers how emotion is staged and revisits the poetics of return by looking at patterns such as the eloping returning failed and dead bride Finally the theme of separation and return as an exemplification of a distinct female nostos is revisited in female authored poetry which helps us decode the complex interweaving of wedding performances and lamentation among other types of performance

Decoding the Osirian Myth Panagiota Sarischouli, 2024-09-23 The earliest written references to the Osirian myth complex appeared already in the Pyramid Text spells c 2400-2300 BCE The most complete exposition of this ancient Egyptian myth is however found in the Greek treatise *On Isis and Osiris* in which the 2nd century CE Platonist Plutarch utilises Egyptian mythology to advocate his philosophical ideas concerning the divine and the nature of the cosmos This book aims at decoding Plutarch's narrative of the Osirian myth linking his claims to the existing Egyptian and Greek parallels It thus analyses a multitude of mythic and religious traditions from a transcultural perspective exploring the relation of the Pharaonic features of the Osirian divinities to the features they had acquired in Ptolemaic and Roman times interpreting the Egyptian myth within the overall framework of parallel mythologies from other cultures and examining whether the brief mythic stories *historiolae* recited in Late Egyptian ritual texts can be deployed to enrich the context of certain obscure episodes in Plutarch's account of the myth The book will be of great interest not only to scholars and students of Plutarch and later Middle Platonism but also to Egyptologists Due to its thematic variety and scope this publication will also appeal to a wider array of readers specialists and non specialists alike interested in religious syncretism interreligious connections and the challenge of multiculturalism from Hellenistic times until Late Antiquity
