Everyday Urban Practices in Africa Nadine Appelhans, Carmel Rawhani, Marie Huchzermeyer, Basirat Oyalowo, Mfaniseni Fana Sihlongonyane, 2024-08-14 This book disrupts the dominant underlying international norms informing urban development strategies across African cities International policy frameworks have created a new universal agenda for developing cities However these frameworks have also imposed global paradigms and discourses that are often in conflict with local urbanisms As we approach the deadline for achieving the Sustainable Development Goals there is need for reflection and deliberation on a post 2030 agenda The authors identify powerful assumptions norms and positionalities that obfuscate the efforts to achieve sustainable development in African cities as well as along the North South divide They argue that a disruptive critique of these normative concepts grounded in the lived African urban everyday opens up opportunities to dismantle their assumed neutrality Through disruption the authors critically re interpret the meanings of policy and the praxis of local urbanism ultimately challenging the logic of universalising concepts underpinning implementation in the current international policy system and asserting the need for contextualised urban policies The book will be of interest to scholars and students of urban studies development planning urban governance human settlements development studies urban geography and African studies It will also be useful for practitioners including town and regional urban planners urban policy consultants and international development cooperation agencies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Struggle for Change Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin Chiles now offers a unique take on Richmond's racial politics since the civil rights era by demonstrating that the city's current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond's racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond's Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans

Rajshekhar, 2024-03 About the Book A LUCID NECESSARY ACCOUNT OF HOW DRASTICALLY THE INDIAN STATE FAILS ITS CITIZENS The story of democratic failure is usually read at the level of the nation while the primary bulwarks of democratic functioning the states get overlooked This is a tale of India's states of why they build schools but do not staff them with teachers favour a handful of companies so much

that others slip into losses wage water wars with their neighbours while allowing rampant sand mining and groundwater extraction harness citizens right to vote but brutally crack down on their right to dissent Reporting from six states over thirty three months award winning investigative journalist M Rajshekhar delivers a necessary account of a deep crisis that has gone largely unexamined *Yearbook of International Organizations 2014-2015 (Volume 4)* Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations *The Health Effects of Cannabis and Cannabinoids* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on the Health Effects of Marijuana: An Evidence Review and Research Agenda, 2017-05-01 Significant changes have taken place in the policy landscape surrounding cannabis legalization production and use During the past 20 years 25 states and the District of Columbia have legalized cannabis and or cannabidiol a component of cannabis for medical conditions or retail sales at the state level and 4 states have legalized both the medical and recreational use of cannabis These landmark changes in policy have impacted cannabis use patterns and perceived levels of risk However despite this changing landscape evidence regarding the short and long term health effects of cannabis use remains elusive While a myriad of studies have examined cannabis use in all its various forms often these research conclusions are not appropriately synthesized translated for or communicated to policy makers health care providers state health officials or other stakeholders who have been charged with influencing and enacting policies procedures and laws related to cannabis use Unlike other controlled substances such as alcohol or tobacco no accepted standards for safe use or appropriate dose are available to help guide individuals as they make choices regarding the issues of if when where and how to use cannabis safely and in regard to therapeutic uses effectively Shifting public sentiment conflicting and impeded scientific research and legislative battles have fueled the debate about what if any harms or benefits can be attributed to the use of cannabis or its derivatives and this lack of aggregated knowledge has broad public health implications The Health Effects of Cannabis and Cannabinoids provides a comprehensive review of scientific evidence related to the health effects and potential therapeutic benefits of cannabis This report provides a research agenda outlining gaps in current knowledge and opportunities for providing additional insight into these issues that

Pregnancy and Power, Revised Edition Rickie

Solinger, 2019-07-16 A sweeping chronicle of women's battles for reproductive freedom Reproductive politics in the United States has always been about who has the power to decide lawmakers the courts clergy physicians or the woman herself Authorities have rarely put women's needs and interests at the center of these debates Instead they have created reproductive laws and policies to solve a variety of social and political problems with outcomes that affect the lives of different groups of women differently Reproductive politics were at play when slaveholders devised breeding schemes when the US government took indigenous children from their families in the nineteenth century and when doctors pressured Latina women to be sterilized in the 1970s Tracing the main plot lines of women's reproductive lives the leading historian Rickie Solinger redefines the idea of reproductive freedom putting race and class at the center of the effort to control sex and pregnancy in America over time Revisiting these issues after more than a decade this revised edition of *Pregnancy and Power* reveals how far the reproductive justice movement has come and the renewed struggles it faces in the present moment Even after nearly a half century of reproductive rights a cascade of new laws and policies limits access and prescribes punishments for many people trying to make their own reproductive decisions In this edition Solinger traces the contemporary rise of reproductive consumerism and the politics of free market health care as economic inequality continues to expand in the US revealing the profound limits of choice and the continued need for the reproductive justice framework

Sleeper Agent Ann Hagedorn, 2022-06-28 This historical page turner of the highest order The Wall Street Journal tells the chilling little known story of an American born Soviet spy in the atom bomb project during World War II perfect for fans of *The Americans* and nominated for an Edgar Award for Best Fact Crime Born in Iowa schooled in science at Columbia University and as American as baseball George Koval was the ultimate secret agent Because he had security clearances to the Manhattan Project he was able to pass invaluable classified information that helped Soviet scientists produce an atomic

bomb years earlier than US experts had expected The FBI only identified him several years after he had returned to the Soviet Union and in 2007 Vladimir Putin posthumously awarded him Russia's highest civilian honor for his contribution to the Soviet atomic bomb program As William J Broad wrote in The New York Times Koval was one of the most important spies of the twentieth century but because of his success he is also the least known Sleeper Agent is his fascinating story a real life thriller as gripping as any spy novel and worthy of John le Carre The New York Journal of Books
