traditional view considering innovation as having to be commercialized at any price is being challenged. Lately there has been growing interest in innovation in the public sector particularly with respect to social innovations designed to reduce income inequality. To address these concepts constant exchange of ideas and information between research groups became necessary. Promoting sustainable local economic development initiatives Marius Venter, 2022. This book endeavours to outline case studies that promote sustainable Local Economic Development LED initiatives. It is generally believed that local governments are the foot soldiers of LED. However this seems to be a myth as local governments in South Africa and elsewhere have not yet fulfilled this mandate and have been struggling for several years to implement LED initiatives. The distinctive merit of this book lies in the way it combines the South African context with the wider international development context in ways that there is a flow of information and ideas both ways. The book is an essential part of this sequence of ideas development and action at a critical time for strategic action directed at a sustainable future. It showcases case studies and responses to the impacts of globalisation as a bridge between urban rural and institutional action and reveals avenues for local government leadership in communities research student engagement and wider interactions.

Perspectives on the Legislature and the Prospects of Accountability in Nigeria and South Africa Omololu Fagbadebo, Fayth Ruffin, 2018-08-03. This book examines the problem of accountability in two African political systems South Africa and Nigeria. Despite the principle of separation of powers and the doctrine of checks and balances among the institutions of governance a burgeoning governance crisis stifles the potential of accountability and good governance. Legislative oversight in the two countries remains largely ineffective while citizens are left to face the consequences of the mismanagement of public resources by political elites. This book critically assesses how the legislative institutions in South Africa and Nigeria have been unable to harness the requisite constitutional powers to ensure accountability in government and explores the feasibility of their effectiveness. The book begins with a comparative analysis of the principles tradition and powers associated with legislative capability in South Africa and Nigeria. The chapters explore constitutional provisions and analyze the capacity of each legislature to function within its respective political environment. The book also examines the process and challenges associated with the various measures and mechanisms available for legislatures to ensure accountability in the two countries. Researchers scholars and students of African politics will find this book useful in their understanding of the problems associated with the simmering

governance crisis in South Africa and Nigeria Tourism Economics Metin Kozak, 2015-09-04 This book examines tourism economics in detail providing a range of specific case studies of tourism operations in various countries across the world. The contributors to this volume are from diverse locations with ten countries across four continents represented namely Canada, China, Greece, India, Iran, Poland, Portugal, South Africa, Spain, and the USA. The book is systematic in structure and thorough in content and will be useful for both academics and tourism professionals seeking to update their knowledge and practice of tourism economics and to contribute to the field by developing further research proposals at both the micro and macro levels.
