2014 Zimsec November O Level Time:

Climate Variability and Change in the 21st Century Stefanos Stefanidis, Konstantia (Dia) Tolika, 2021-01-19 Water resources management should be assessed under climate change conditions as historic data cannot replicate future climatic conditions. Climate change impacts on water resources are bound to affect all water uses i.e. irrigated agriculture, domestic and industrial water supply, hydropower generation and environmental flow of streams and rivers and water level of lakes. Bottom up approaches i.e. the forcing of hydrologic simulation models with climate change models outputs are the most common engineering practices and considered as climate resilient water management approaches. Hydrologic simulations forced by climate change scenarios derived from regional climate models RCMs can provide accurate assessments of the future water regime at basin scales. Irrigated agriculture requires special attention as it is the principal water consumer and alterations of both precipitation and temperature patterns will directly affect agriculture yields and incomes. Integrated water resources management IWRM requires multidisciplinary and interdisciplinary approaches with climate change to be an emerging cornerstone in the IWRM concept. *The Airline Revolution* Gordon Mills, 2016-07-15 When starting new airlines in response to government deregulation, entrepreneurs in the U.S. and Europe reduced some traditional service qualities to reduce costs concentrated on non-stop services between city pairs not already so connected, improved on time performance and offered low fares to win leisure travelers from the incumbents and to encourage more travel. In recent developments, some of the new airlines have offered optional extras at higher fares to attract business travelers and entered major routes alongside the legacy carriers. Within both the U.S. and Europe, deregulation removed most geographical barriers to expansion by short-haul airlines. Later, limited deregulation spread to other world regions where many short-haul routes connect city pairs in different countries and where governments have retained traditional two-country mechanisms restricting who may fly. To gain access to domestic routes in other countries, some new airlines are setting up affiliate companies in neighboring countries with each company legally controlled in the country of domicile. With air travel growing strongly, especially in Asia, a common result is intense but potentially short-lived competition on major routes. The recent developments give clear signposts to likely mid-term outcomes and make this an opportune time to report on the new airline scene. *The Airline Revolution* will provide valuable economic analysis of this climate to students, airline professionals advancing to senior positions, public servants and others who provide advice to governments. *Cross-border Migration: Zimbabwe - South Africa Exodus* Elvis A. Masawi, 2017-01-14 The tribulations and terrors of the Zimbabwean diaspora seeking economic sanctuary in South Africa. *The History and Political Transition of Zimbabwe* Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis. Its focus is on a very problematic political culture that is proving very hard to transcend. At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti-colonial liberation struggle in the

1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics

The End of an Era? Robert Mugabe and a Conflicting Legacy Munyaradzi, Mawere, Marongwe, Ngonidzashe, 2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe s legacy can broadly be represented first by those who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies

This book examines why Zimbabwean immigrants in Britain should be viewed as a product of ethno racial identities and prejudices developed and nurtured during the colonial and post colonial phases of Zimbabwe s history In the absence of shared historic socio economic or cultural commonalities the book will tackle the key question Are Zimbabweans in Britain demarcated by race and ethnicity an imagined community Through an analysis of personal interviews and secondary and primary sources it identifies and engages historical experiences that had been instrumental in constructing diasporic identities and integration processes of Zimbabwean immigrants With most literature tending to create perceptions that Zimbabwean immigrants are a monolithic community of Blacks the book s comparative analysis of Blacks Whites Coloureds and Asians unveils a multi racial community fragmented by historic racial and ethnic allegiances and prejudices It is essential reading for scholars and researchers interested in migration African Diaspora and colonial and post colonial studies *Kanyenze: Zimbabwe: The Link Between Politics and* ,2023-03-20

In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far reaching analysis of the socio economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence Kanyenze describes the various phases of the socio economic development starting with 1980 when the people of Zimbabwe saw their hard won independence and new democracy as a promise for a **Beyond Rigidity** Mu Ren,2021-01-23
